# CONGRESS DECLARES A STATE OF WAR!

## HOUSE PASSES WAR RESOLUTION

y Telegraph to The Freeman.

Washington, April 6.—The United tates is at war with the Imperial erman government.

Amid scenes that long will be remembered the house this morning passed the Flood-Martin resolution, declaring that a state of war exists

Three hundred and seventy-three were cast for the measure; 50 were ast against it; nine members were absent—and Speaker Champ Clark did not vote.

Only the attaching of official signatures remains to complete the act. Immediately upon the senate convening at noon today Vice-president Marshall will sign the resolution and it will then be rushed by special messenger to the White House. There it will be signed by President Wilson and the United States will be in the war. The signature of Speaker Clark has already been attached to the document.

That the United States will wage war in unison with the Allies was not doubted today. American ships and American soldiers will co-operate with Germany's other enemies. This was plainly indicated in the dawning hours of this morning when the house, wearied by more than 16 hours of fervid oratory, voted down several resolutions calculated to place America in an isolated position regarding the conduct of the war.

One of these—designed to forbid American soldiers being sent to Europe without express consent of congress—was jeered as it went down to defeat

Anticipating the passage of the resolution, the war bureaus of the government labored all night preparing the ways for the nation's entrance into the world conflict. Dawn found them at their desks.

One of the first war measures of the government will be the introduction in congress of the general staff army bill, providing for selective conscription of young men between the ages of 19 and 25. The bill is designed to raise and train one million men within a year; 2,000,000 within two years and 100,000 officers to train them.

They will be brought into service in units of half a million.

Government officials expect some opposition to develop against the measure, but its passage is assured.

The financing of the United States for the world conflict is already well under way. The brains of the best financiers have been concentrated on this problem for weeks in anticipation of war's coming. Its arrival finds the nation prepared.

Secretary of the Treasury McAdoo said today there will be little difficulty in raising funds. The federal reserve banks alone are in a position to take care of $2,000,000,000 worth of bonds—more than half the immense sum asked for yesterday in estimates sent to congress for the army and navy needs.

Acting under orders from Washington, federal officers in all American ports have either seized or are seizing German interned ships today.

Many of these ships are practically useless, their German officers having smashed the priceless machinery. The others will be put under control of American commanders and crews and used to fill up the gap in American tonnage.

General war plans of gigantic proportions, undreamed of two years ago, are under way by all government departments today. Some of them are of a confidential nature and cannot be revealed.

Working hand in hand with the administration heads of the government are the members of the Council of National Defense—food experts, munitions experts, transportation experts, experts in all of the vast necessities of war.

A campaign of recruiting for the army and navy such as the nation has never seen will begin in earnest from coast to coast today.

## FIFTY VOTED AGAINST WAR

Washington, April 6.—Fifty representatives voted against America's entrance into the world war as the first gray streaks of dawn were coming through the high windows of the capitol this morning.

Thirty two Republicans, 16 Democrats, one Prohibitionist, and one Socialist opposed the measure.

The following Republicans voted against the resolution:

Bacon of Michigan, Britten of Illinois; Browne of Wisconsin; Cary of Wisconsin; Cooper of Wisconsin; Davidson of Wisconsin, Dillon of South Dakota; Esch of Wisconsin, Frear of Wisconsin; Davis of Minnesota, Fuller of Illinois; Haugen of Iowa; Hayes of California; Hull of Iowa; Johnson of South Dakota; King of Illinois; Kinkaid of Nebraska, Knutson of Minnesota; LaFollette of Washington; Little of Kansas; Lunden of Minnesota; Mason of Illinois; Nelson of Wisconsin; Rankin of Montana; Reavis of Nebraska; Roberts of Nevada; Rodenberg of Illinois; Sloan of Nebraska; Stafford of Wisconsin; Voigt of Wisconsin; Wheeler of Illinois; Woods of Iowa.

The following Democrats voted against the resolution:

Almon of Alabama; Burnett of Alabama, Church of California; Connolly of Kansas, Decker of Missouri; Dill of Washington; Dominick of South Carolina; Hensley of Missouri; Hilliard of Colorado; Igoe of Missouri, Keating of Colorado; Kitchin of North Carolina; McLemore of Texas; Shackleford of Missouri; Sherwood of Ohio; VanDyke of Minnesota.

One Socialist, London of New York, and one Prohibitionist, Randall of California, also cast their votes against the measure.

## SOBBING WOMAN VOTES AGAINST WAR

By Telegraph to The Freeman.

Washington, April 6.—The first vote ever cast by a woman representative in an American Congress was against this nation going to war.

Weary and haggard from hours of unaccustomed excitement and turmoil, Miss Jeannette Rankin, of Montana, rose to her feet when her name was called on the Flood-Martin resolution this morning. There was a catch in her voice and she swayed slightly. Every eye was on her.

"I want to stand by my country, but I cannot vote for war," she said brokenly.

She was led, half sobbing, from the room by two of her colleagues.

## SUBMARINES SEEN NEAR PORTO RICO

By Telegraph to The Freeman.

New York, April 6.—Wireless warnings were today flashed to allied shipping that German submarines were sighted last night between Porto Rico and Bermuda. This locality is close to the Great Circle Trade Route between New York, the West Indies and South America. The warning read: "Submarines reported 9 p. m. April 5, lat. 26 north, long. 59.42 west. Take all precautions."

## WAR DEPARTMENT PLANS TO TRAIN 2,000,000 MEN

By Telegraph to The Freeman.

Washington, April 6—With America's entry into the world war formally declared, Congress today set about the task of providing the army to defend the cause to which the United States is committed.

Secretary of War Baker went to the Capitol to explain to the house military affairs committee the administration army bill calculated to raise a force of one million men in a year and twice that number in two years. The military committee met behind closed doors They realized that theirs is a solemn task. The bill which Secretary Baker explained to them was prepared by the General Staff of the army.

It provides first of all for the immediate raising of the present regular army and National Guard to the combined authorized war strength by the volunteer system if responses are sufficiently prompt. Otherwise the troops must be obtained by draft Similarly the bill provides for the calling to the colors by late summer of the first increment of a new fighting force of 500,000 men.

A bitter fight by pacifists in and out of congress is bound to be made upon the conscription principle as contrary to the whole spirit of American ideals. But the administration has made up its mind. The United States has entered the war after full deliberation. Having taken the sword, President Wilson and his advisors are fully determined that no half way measures will be adopted. An army of hundreds of thousands of men must be raised if America is to play a fighting part. Mr. Wilson's advisers do not believe that these men can be obtained through the volunteer system.

First of all the general staff bill provides for the training of some 100,000 officers and non-commissioned officers who in turn will be the instructors of the youthful hosts to be impressed from farm and factory, school and office and who have yet to receive their first lessons in the rudiments of handling a rifle.

The National Guard is capable of expansion to 327,000 men and about 10,000 officers Under the national defense act, the Guard would immediately be taken into the federal service as it was last summer when called to Mexican patrol duty.

With the regulars and National Guard augmented to their full war strength, the attention of the military authorities must be turned to the youth of the country from which it is planned to draw during the next two years an army of 2,000,000 men.

To this end, federal, state and local authorities will be called upon to co-operate in registering the young men of the country between the ages of 19 and 25 years. Exemptions will be made of those physically unfit, those supporting dependents, members of religious bodies having scruples against the bearing of arms and finally those engaged in industrial pursuits necessary to the conduct of the war.

By this means some time in late summer the first increment, of 500,000 newly trained recruits would be available. Within a year a second increment of 500,000 would be called to the colors with other officers and instructors drawn from the regulars and the National Guard to take them in charge The army, whatever its ultimate proportions, will, according to present plans be raised in installments of half a million men.

The mammoth estimate of $3,000,000,000 for an appropriation for the new army made to congress yesterday is but a starter. It contemplates the carrying out only of the program for one year. Other fabulous amounts must be provided to equip the army with ammunition and reserve supplies when the time comes for it to go to the firing line.

## NEW PALTZ PATRIOTISM SHOWN AT MASS MEETING

### More Than 200 Citizens Enroll to Serve Government to Best of Their Ability---Not Restricted to Service in The Village.

New Paltz took a conspicuous place on the map of Ulster county patriotism Thursday night when 200 men pledged themselves to the service of the nation in any way possible and to the best of their capacity, at a largely attended mass feeting held in Hasbrouck Hall. There was no redfire but the sincerity of purpose and willingness to serve was in evidence on all sides and action was taken for the formation of a Home Defense Committe, which will at once engage in military training with the twofold object of providing recruits for the regular army and National Guard and of placing themselves in readiness to do militia duty at the governor's command anywhere in the state.

Principal Bliss of the New Paltz Normal School, Captain Kidder, adjutant of the Tenth regiment, and the regimental chaplain, the Rev. Father Kelly, were the speakers and the earnestness of their remarks was reflected in the demeanor of their audience. Col. Jacob Kline, of the Tenth regiment, whose headquarters are at New Paltz, was an interested spectator at the gathering and spoke today in highest terms of the patriotism of New Paltz men and women as exhibited on this occasion.

### Speakers Outline Objects.

The keynote of the gathering was expressed by Principal Bliss, who in outlining the wide field for possible service, laid stress upon the sacrifices which must be made by individual citizens and expressing the firm conviction that New Paltz would do her part in the great struggle about to begin.

Captain Kidder, who is a popular figure in New Paltz, spoke about the need for recruits and the valuable work that can be done in stimulating the enlistment for the army and the navy. He also laid stress upon the home defense feature as emphasized by Governor Whitman in his letter to Village President Gregory, telling of the duties to be performed by men volunteering for this branch of the service which will supplant the militia all over the state after the guard is called to the colors

The Rev Father Kelly dwelt upon the necessity for all citizens being prepared to do whatever is found necessary to be done and whatever each was capable of doing for the cause. In those two sentences, the speaker summed up the sense of the meeting, about 200 men enrolling for service in one capacity or another. Several former guardsmen in the audience showed a similar spirit.

### Not Restricted to New Paltz.

President Gregory today will take up the organization of a Home Guard and Colonel Kline has stated his willingness to detail men from his command to give the necessary military training. The uses of this home company to fill the ranks of the organizations of the militia or regular army were pointed out. In addition their duties in the maintenance of order and for guard duty in the place of the militia was discussed informally, it not being the intention of the volunteers to restrict their service to New Paltz village.

### Col. Kline Much Pleased.

Colonel Kline today in speaking of the meeting said: "I was very, very favorably impressed with the general feeling manifested among the people of New Paltz, not only among the men but among the women. They showed a very decided desire to get into this thing and be of the greatest service possible. There was no hesitancy whatever but a good, vigorous exhibition of willingness to help the government in any way possible."

### In Justice to Frank Van Steenburgh.

In reporting the arrest of Brony Koslowsky, wanted at Bridgeport, Conn., for alleged theft, the Freeman said that the young man was arrested with Frank Van Steenburgh in January, 1915, whereas it should have been said Fred Van Steenburgh. Frank Van Steenburgh is a well known carpenter of Third avenue, who has never been in collision with the police and The Freeman is glad to publish this correction in justice to him.

## CLINTON GUARDS PLEDGE LOYALTY

### But Restrict Service to City of Kingston on Order of City Authorities—Governor's Appeal to Form Militia Company Ignored.

Fifty-four of the members of the Clinton Guard, which was organized some time ago, attended the regular meeting and drill of the Guard at the armory Thursday night and signed a pledge by which they become liable to be called on for police duty by the city officials within the city of Kingston. The pledge contains an assurance of loyalty to the United States.

The pledge taken by the members of the Clinton Guard limits the activities of the members to the city of Kingston and the action is designed to furnish to the police and other city authorities a list of men who will be ready to answer a call for police duty in the event of such an emergency arising. Before performing such duty it would be necessary, of course, for the members to be sworn in as special officers, and commands would be communicated through the commanding officer, Captain Everett Fowler.

Most of the Guards probably will be merged in the Home Defense Guard when the latter is organized in accordance with the recently enacted laws and the plans now being carried into effect by Governor Whitman and other state officials.

The remaining members of the Clinton Guard who were not at Thursday night's meeting are expected to sign the pledge today or tomorrow, as soon as they can be reached or as soon as they return to Kingston from business trips on which they are now engaged.

The pledge which was signed by the members present at Thursday night's meeting was as follows:

"We, the undersigned, residents of the city of Kingston, N. Y., and members of the Clinton Guard, hereby pledge our loyalty to the United States and agree to perform any and all duties that may be required of us in the city of Kingston, N. Y., when called upon by the proper authorities of the city of Kingston through our commanding officer."

## GERMAN SHIPS SEIZED BY U. S.

New York, April 6.—Germany's $51,300,000 mercantile fleet, which had been interned here since the outbreak of the war, was seized by the United States today.

There were twenty-seven passenger liners, freighters and sailing ships in the fleet, among them the Vaterland, one of the biggest and finest passenger liners in the world.

The German officers and crews, numbering more than 5,000 men, were taken to Ellis Island for internment.

This was the first decisive war measure against Germany in the metropolis following the passage by the state of war resolution by congress.

It was learned that the machinery on some of the ships was smashed. United States naval men will make a thorough examination of the vessels to determine the exact extent of the damage.

The ships seized aggregated 304,000 tons. Eleven of them displaced more than 10,000 tons. The mighty Vaterland is a leviathan of 54,284 tons and it cost $7,500,000 to build her.

The German officers and sailors on the ships made no resistance when the United States officials went on board. Nor did they murmur when told to prepare to go to the immigration station at Ellis Island. A whole fleet of customs boats swarmed in the Hudson collecting the Germans.

The seizures were carried out quickly and simultaneously in the port of New York, at Hoboken and at Stapleton, S. I.

Dudley Field Malone, collector of the port of New York, superintended the confiscation of the 19 vessels tied up along the Hoboken waterfront.

The customs men on the New York city side of the Hudson were in charge of George F. Lamb, assistant collector. Four of the seized ships were anchored at 135th street. The remaining four were in port at Stapleton.

In fear of possible resistance a squad of infantry from the United States regular barracks at Governor's Island accompanied the customs officials but their services were not needed

The German ships at 135th street were towed to Hoboken during the morning. Heavy guards are patrolling the entire fleet.

The ships taken over are: President Grant, President Lincoln, Vaterland, Nassovia, Prinz Eitel Friedrich, Armenia, Bohemia, Pisa, Pennsylvania, Hamburg, Adamsturm, Magdeburg, Matador, (sailing ship), Maia, Clara Mennig, Indra, (sailing ship), Portonia, Prinz Joachim, Allemania, Koenig Wilhelm II, Harburg, George Washington, Kaiser Wilhelm II, Freiderich der Grosse, Prinzess Irene, Barbarossa, and Grosser Kurfurst.

The captains of all the ships interned at Hoboken were summoned to the Vaterland which might be termed the flagship of the German mercantile fleet. On the deck of the mighty liner, in the presence of her captain, Hans Ruser, and the masters of the other German vessels, Collector Malone declared:

"Pursuant to orders of the government of the United States I have come here to take control of your ships and to order you captains to assemble the crews of your ships here."

Seven women, all wives of German officers, were removed from the German vessels at Hoboken. They accompanied their husbands to Ellis Island.

New London, Ct., April 6.—The German steamship Willehad, which acted as "mother ship" to the Deutschland, was seized by the United States today. The crew of 335 men was arrested. The Willehad was owned by the North German-Lloyd Line. She was formerly interned at Boston but came here last August.

Boston, April 6.—Four interned German vessels at East Boston were seized by a detail of 100 bluejackets from the navy yard and 150 customs inspectors early today and the German crews routed out of their bunks and transported to the immigration station.

The vessels seized are the Amerika, Koln, Wittekind and Cincinnati. The German sailors made no resistance.

Baltimore, Md., April 6.—The German liners Rhein, Neckar and Bulgaria, interned here, were seized early today by United States Marshal W. W. Stockholm, supported by 100 deputies and two companies of the Fourth Maryland Infantry. The machinery of the three ships was found to have been entirely disabled. The crews were turned over to United States marine forces. The officers were permitted to register at a local hotel.

Jacksonville, Fla., April 6.—The U. S. customs authorities boarded the interned German steamer Freda Leonhardt today and took off the crew of ten men who are held by the United States marshal The engines of the ship have been wrecked, and many important parts thrown overboard, which cannot be replaced except from Germany.

The Freda Leonhardt is a vessel of 2,000 tons gross.

Wilmington, N. C., April 6.—Twenty-five seamen from the United States coast guard cutter Seminole, under command of Lieuts. Rynu and Smith, today seized the two German merchant ships Kiel and Nicaria, which have been here since the war in Europe commenced, and the twenty members of the crews, including the captains, were taken prisoners to the U. S. Marine Hospital.

There was no resistance Later in the day the U. S. marshal is expected to take charge of the prisoners.

Philadelphia, April 6.—The two interned German liners Prinz Oskar and Rhaetia, of the Hamburg-American line, were seized here by the United States officials today. The crews of both vessels are being taken to the government detention station at Gloucester, N. J. Before night it is expected the government will seize the two other German ships here, the auxiliary cruisers Prinz Eitel Friederich and Kronprinz Wilhelm.

San Francisco April 6.—United States customs officials seized the interned German vessels Serapis, Omawa, Atlas and Neptune here today. The crews were interned at the Angel Island immigration station. The vessels aggregate 5,891 tons.

Portland, Ore., April 6.—Three German sailing vessels lying in the Columbia and Willamette rivers were seized today by Thomas C. Burke, United States collector of customs. The vessels are the Vinnen, at Clifton, the Dalbek at Linnton, and the Kert at Astoria. Guards of soldiers were left aboard.

Savannah, Ga., April 6.—The German freighter Hohenfelde was seized by the collector of customs today.

New Orleans, La., April 6.—The German steamers Breslau and Andromeda were seized by federal officials here today and their crews removed to the immigration station.

Seattle, Wn., April 6.—Customs guards were placed on the interned German steamer Saxonia and the sailing vessel Steinbek here today by Collector of Customs Roscoe Brumheller.

The thirteen members of the crews were taken to the immigration detention station.

## 100 AMERICANS HELD IN BERLIN

By Telegraph to The Freeman.

The Hague, April 5—About 100 Americans are being detained in Berlin, according to information received from the German capital today.

Some Americans have been arrested at Berlin and are suffering keen privations in prison. Among them is J. W. James, a New York journalist.

Among the American unable to get passports from the German foreign office is Mrs. Neumann Hofer, who gave valuable assistance to Ambassador Gerard as he was leaving Germany.

### April Social at Plattekill.

The Plattekill Epworth League will hold their April social at the home of Mrs. M. Waite on Wednesday evening, April 11. A program will be given consisting of piano solos, recitations, vocal solos, patriotic songs and also some of the old favorite songs. A good time is assured to all. Games will be played, some of the old favorite ones as well as some new ones which are just as good. A fine supper will be served. All are cordially welcome.

In addition their duties in the maintenance of order and for guard duty in the place of the militia was discussed informally, it not being the intention of the volunteers to restrict their service to New Paltz village.

### Col. Kline Much Pleased.

Colonel Kline today in speaking of the meeting said: "I was very, very favorably impressed with the general feeling manifested among the people of New Paltz, not only among the men but among the women. They showed a very decided desire to get into this thing and be of the greatest service possible. There was no hesitancy whatever but a good, vigorous exhibition of willingness to help the government in any way possible."

### In Justice to Frank Van Steenburgh.

In reporting the arrest of Brony Koslowsky, wanted at Bridgeport, Conn., for alleged theft, the Freeman said that the young man was arrested with Frank Van Steenburgh in January, 1915, whereas it should have been said Fred Van Steenburgh. Frank Van Steenburgh is a well known carpenter of Third avenue, who has never been in collision with the police and The Freeman is glad to publish this correction in justice to him.

## CLINTON GUARDS PLEDGE LOYALTY

### But Restrict Service to City of Kingston on Order of City Authorities—Governor's Appeal to Form Militia Company Ignored.

Fifty-four of the members of the Clinton Guard, which was organized some time ago, attended the regular meeting and drill of the Guard at the armory Thursday night and signed a pledge by which they become liable to be called on for police duty by the city officials within the city of Kingston. The pledge contains an assuranec of loyalty to the United States.

The pledge taken by the members of the Clinton Guard limits the activities of the members to the city of Kingston and the action is designed to furnish to the police and other city authorities a list of men who will be ready to answer a call for police duty in the event of such an emergency arising. Before performing such duty it would be necessary, of course, for the members to be sworn in as special officers, and commands would be communicated through the commanding officer, Captain Everett Fowler.

Most of the Guards probably will be merged in the Home Defense Guard when the latter is organized in accordance with the recently enacted laws and the plans now being carried into effect by Governor Whitman and other state officials.

The remaining members of the Clinton Guard who were not at Thursday night's meeting are expected to sign the pledge today or tomorrow, as soon as they can be reached or as soon as they return to Kingston from business trips on which they are now engaged.

The pledge which was signed by the members present at Thursday night's meeting was as follows:

"We, the undersigned, residents of the city of Kingston, N. Y., and members of the Clinton Guard, hereby pledge our loyalty to the United States and agree to perform any and all duties that may be required of us in the city of Kingston, N. Y., when called upon by the proper authorities of the city of Kingston through our commanding officer."

## GERMAN SHIPS SEIZED BY U. S.

New York, April 6.—Germany's $51,300,000 mercantile fleet, which had been interned here since the outbreak of the war, was seized by the United States today.

There were twenty-seven passenger liners, freighters and sailing ships in the fleet, among them the Vaterland, one of the biggest and finest passenger liners in the world.

The German officers and crews, numbering more than 3,000 men, were taken to Ellis Island for internment.

This was the first decisive war measure against Germany in the metropolis following the passage by the state of war resolution by congress.

It was learned that the machinery on some of the ships was smashed. United States naval men will make a thorough examination of the vessels to determine the exact extent of the damage.

The ships seized aggregated 304,000 tons. Eleven of them displaced more than 10,000 tons. The mighty Vaterland is a leviathan of 54,284 tons and it cost $7,500,000 to build her.

The German officers and sailors on the ships made no resistance when the United States officials went on board. Nor did they murmur when told to prepare to go to the immigration station at Ellis Island. A whole fleet of customs boats swarmed in the Hudson collecting the Germans.

The seizures were carried out quickly and simultaneously in the port of New York, at Hoboken and at Stapleton, S. I.

Dudley Field Malone, collector of the port of New York, superintended the confiscation of the 19 vessels tied up along the Hoboken waterfront.

The customs men on the New York city side of the Hudson were in charge of George F. Lamb, assistant collector. Four of the seized ships were anchored at 135th street. The remaining four were in port at Stapleton.

In fear of possible resistance a squad of infantry from the United States regular barracks at Governor's Island accompanied the customs officials but their services were not needed.

The German ships at 135th street were towed to Hoboken during the morning. Heavy guards are patrolling the entire fleet.

The ships taken over are: President Grant, President Lincoln, Vaterland, Nassovia, Prinz Eitel Friederich, Armenia, Bohemia, Pisa, Pennsylvania, Hamburg, Adamsturm, Magdeburg, Matador, (sailing ship), Maia, Clara Mennig, Indra, (sailing ship), Portonia, Prinz Joachim, Allemania, Koenig Wilhelm II, Harburg, George Washington, Kaiser Wilhelm II, Freiderich der Grosse, Prinzess Irene, Barbarossa, and Grosser Kurfurst.

The captains of all the ships interned at Hoboken were summoned to the Vaterland which might be termed the flagship of the German mercantile fleet. On the deck of the mighty liner, in the presence of her captain, Hans Ruser, and the masters of the other German vessels, Collector Malone declared:

"Pursuant to orders of the government of the United States I have come here to take control of your ships and to order you captains to assemble the crews of your ships here."

Seven women, all wives of German officers, were removed from the German vessels at Hoboken. They accompanied their husbands to Ellis Island.

New London, Ct., April 6.—The German steamship Willehad, which acted as "mother ship" to the Deutschland, was seized by the United States today. The crew of 335 men was arrested. The Willehad was owned by the North German-Lloyd Line. She was formerly interned at Boston but came here last August.

Boston, April 6.—Four interned German vessels at East Boston were seized by a detail of 100 bluejackets from the navy yard and 150 customs inspectors early today and the German crews routed out of their bunks and transported to the immigration station.

The vessels seized are the Amerika, Kolm, Wittekind and Cincinnati. The German sailors made no resistance.

Baltimore, Md., April 6.—The German liners Rhein, Neckar and Bulgaria, interned here, were seized early today by United States Marshal W. W. Stockholm, supported by 100 deputies and two companies of the Fourth Maryland Infantry. The machinery of the three ships was found to have been entirely disabled. The crews were turned over to United States marine forces. The officers were permitted to register at a local hotel.

Jacksonville, Fla., April 6.—The U. S. customs authorities boarded the interned German steamer Freda Leonhardt today and took off the crew of ten men who are held by the United States marshal. The engines of the ship have been wrecked, and many important parts thrown overboard, which cannot be replaced except from Germany.

The Freda Leonhardt is a vessel of 2,000 tons gross.

Wilmington, N. C., April 6.—Twenty-five seamen from the United States coast guard cutter Seminole, under command of Lieuts. Ryan and Smith, today seized the two German merchant ships Kiel and Nicaria, which have been here since the war in Europe commenced, and the twenty members of the crews, including the captains, were taken prisoners to the U. S. Marine Hospital.

There was no resistance. Later in the day the U. S. marshal is expected to take charge of the prisoners.

Philadelphia, April 6.—The two interned German liners Prinz Oskar and Rhaetia, of the Hamburg-American line, were seized here by the United States officials today. The crews of both vessels are being taken to the government detention station at Gloucester, N. J. Before night it is expected the government will seize the two other German ships here, the auxiliary cruisers Prinz Eitel Friederich and Kronprinz Wilhelm.

San Francisco, April 6.—United States customs officials seized the interned German vessels Serapis, Omawa, Atlas and Neptune here today. The crews were interned at the Angel Island immigration station. The vessels aggregate 5,891 tons.

Portland, Ore., April 6.—Three German sailing vessels lying in the Columbia and Willamette rivers were seized today by Thomas C. Burke, United States collector of customs. The vessels are the Vinnen, at Clifton, the Dalbek at Linnton, and the Kert at Astoria. Guards of soldiers were left aboard.

Savannah, Ga., April 6.—The German freighter Hohenfelde was seized by the collector of customs today.

New Orleans, La., April 6.—The German steamers Breslau and Andromeda were seized by federal officials here today and their crews removed to the immigration station.

Seattle, Wn., April 6.—Customs guards were placed on the interned German steamer Saxonia and the sailing vessel Steinbek here today by Collector of Customs Roscoe Brumheller.

The thirteen members of the crews were taken to the immigration detention station.

## 100 AMERICANS HELD IN BERLIN

By Telegraph to The Freeman.

The Hague, April 5—About 100 Americans are being detained in Berlin, according to information received from the German capital today.

Some Americans have been arrested at Berlin and are suffering keen privations in prison. Among them is J. W. James, a New York journalist.

Among the American unable to get passports from the German foreign office is Mrs. Neumann Hofer, who gave valuable assistance to Ambassador Gerard as he was leaving Germany.

### April Social at Plattekill.

The Plattekill Epworth League will hold their April social at the home of Mrs. M. Waite on Wednesday evening, April 11. A program will be given consisting of piano solos, recitations, vocal solos, patriotic songs and also some of the old favorite songs. A good time is assured to all. Games will be played, some of the old favorite ones as well as some new ones which are just as good. A fine supper will be served. All are cordially welcome.

# NO TEST NEEDED FOR ELECTROLYSIS

### E. E. Brownell, an Expert on that Subject, Wanted to Make Test of Water Pipes—Water Board to Steer Clear of Any Controversy.

It was brought out at the regular monthly meeting of the water board that E. E. Brownell, an expert on electrolysis, desired permission to make a test of the water pipe system in the city to see if the pipes were damages to any extent by the electric current that drives the trolley cars through the city. His request was turned down by the board.

It was brought out that Mr. Brownell is the inventor of a system which he has installed for the Kingston Consolidated Railroad Company to prevent the electric current injuring the gas mains of the Kingston Gas & Electric Company against the trolley company on the ground that the electric current is damaging the pipes.

The water board had no desire to enter the controversy and thought that if they granted Mr. Brownell permission to make a test of the water pipes it might drag the board into the proposed law suit. Mr. Brownell agreed to make no charge for making the test.

It was also brought out that if there was any damage to the water pipes by the electric current it would most likely be downtown where the ground was moist.

Damage to pipes by the electric current is caused by the fact that the current works down through the ground when it comes in contact with a pipe it runs along it. The pipe is not made to carry the current and consequently the action of the electric current causes the pipe to wear out quicker than usual, making is necessary to lay new pipes.

Bids for painting and decorating the interior of the outer office of the water board at the city hall were opened. Only two bids were received. H. McKittrick's bid of $123, and John Flick, $121. Mr. Flick was awarded the contract.

Superintendent Harrison reported that the house at Reservoir No. 2, which was occupied by the keeper, was in need of a new roof and flooring. The matter was left to him to be repaired.

Several routine matters were discussed and acted upon before the board adjourned.

President Hauck presided at the meeting, with Commissioners Harrison and Chandler present.

## KYSERIKE.

Kyserike, April 5.—Mr. and Mrs. William D. Van Demark pleasantly entertained a number of friends at dinner Saturday evening. Some fine piano selections were rendered by Miss Agnes Olson and Miss Helen Van Demark, accompanied by Thomas Sahlbeck as violinist. Hans Johnson gave several recitations, which were enjoyed by all present.

The party at J. Terwilliger's was well attended. All enjoyed a good time.

Mr. and Mrs. Ernest Christiana spent Sunday with friends at Whitfield.

W. D. Van Demark and daughter attended church at Kromville Sunday.

## NAPANOCH.

Napanoch, April 5.—Tuesday night Napanoch witnessed quite a parade of young lads parading around the town to show their loyalty to the stars and stripes, which were floating from nearly every residence. The march was headed by a leader followed by a boy carrying a large flag, then boys with drums and bugles. In the rear following were boys on bicycles playing the national airs on harmonicas and ending the march, were two large shepherd dogs. They made you think of the spirit of 1776.

Mr. and Mrs. Melvin DeWitt and son of New Jersey are spending the Easter vacation with Mr. and Mrs. C. W. DeWitt.

W. K. Shook has received another car of oats this week.

James Van Sise of New Jersey is spending a few days with friends and relatives in this place.

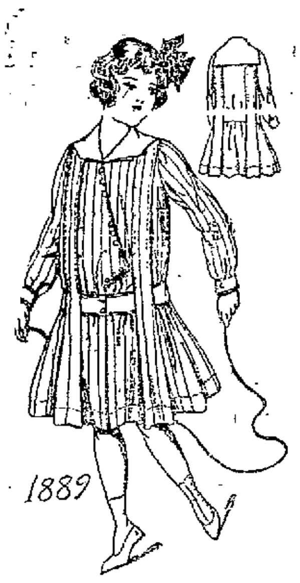
## OUR DAILY PATTERN.



1889.—Girl's One-Piece Dress.

Striped galatea in brown and white with trimming of white pique or percale would make a serviceable school dress in this style. It is also nice in blue or red serge or gabardine and for a best dress could be of velvet, corduroy or taffeta. The right front is shaped over the left and fulness is supplied in the deep box plaits, which may be stitched to any desired depth. The sleeve is a comfortable bishop model, finished with a neat cuff. A smart collar in sailor style trims the neck. The pattern is cut in 5 sizes: 4, 6, 8, 10 and 12 years. It requires 3¾ yards of 36 inch material for an 8 year size.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state the size wanted.

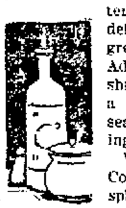
## SPRING SALADS.



By carefully covering dandelion plants with boards they will be white, tender and especially delicious for the first green things of spring. Add to them a little shredded green onion and a French dressing, well seasoned just before serving.

**Vegetable Harlequin.**—Cook a half peck of spinach in the water that clings to the leaves after washing, when tender drain. If there is any liquor save it as this is valuable in iron salts. Chop the spinach fine and season with salt, pepper and butter. Then three or four small beets, cut in dice and heated in a saucepan, with a little butter; season well and add a pint of peas, heated and seasoned in the same way. Arrange the spinach around a platter, inside the ring place the beets and in the middle the peas, keeping the line as straight as possible between the colors. Sprinkle the whole with finely minced parsley and send hot to the table.

**Spinach Salad.**—Wash and cook a half peck of spinach, if young and tender it will cook in its own juices and the water that clings to the leaves. Heat it very gradually and watch it to prevent burning. When tender drain and chop it with six hard-cooked eggs. Add a cupful of toasted, buttered crumbs and a half cupful of minced cooked ham. Pack in small molds and chill on ice. Serve with olives and any desired salad dressing.

**Radish Salad.**—Slice as many radishes as are needed, lay them in overlapping slices around a bed of lettuce. Place on the lettuce a mixture of green vegetables mixed with salad dressing that are at hand.

**Cucumber Jelly Salad.**—Peel and cut two cucumbers in slices, add one slice of onion, a half teaspoonful of salt and a dash of pepper. Simmer until the cucumbers are tender in a pint of water, cold at first. Add a tablespoonful of gelatin, soften in water. Line a mold with fresh slices of cucumber, cut very thin and pour in the jelly slowly. Set in the ice chest to chill. Turn out on lettuce and serve with iced French dressing. Garnish with red peppers.

### E. E. Brownell, an Expert on that Subject, Wanted to Make Test of Water Pipes—Water Board to Steer Clear of Any Controversy.

It was brought out at the regular monthly meeting of the water board that E. E. Brownell, an expert on electrolysis, desired permission to make a test of the water pipe system in the city to see if the pipes were damages to any extent by the electric current that drives the trolley cars through the city. His request was turned down by the board.

It was brought out that Mr. Brownell is the inventor of a system which he has installed for the Kingston Consolidated Railroad Company to prevent the electric current injuring the gas mains of the Kingston Gas & Electric Company against the trolley company on the ground that the electric current is damaging the pipes.

The water board had no desire to enter the controversy and thought that if they granted Mr. Brownell permission to make a test of the water pipes it might drag the board into the proposed law suit. Mr. Brownell agreed to make no charge for making the test.

It was also brought out that if there was any damage to the water pipes by the electric current it would most likely be downtown where the ground was moist.

Damage to pipes by the electric current is caused by the fact that the current works down through the ground when it comes in contact with a pipe it runs along it. The pipe is not made to carry the current and consequently the action of the electric current causes the pipe to wear out quicker than usual, making is necessary to lay new pipes.

Bids for painting and decorating the interior of the outer office of the water board at the city hall were opened. Only two bids were received. H. McKittrick's bid of $123, and John Flick, $121. Mr. Flick was awarded the contract.

Superintendent Harrison reported that the house at Reservoir No. 2, which was occupied by the keeper, was in need of a new roof and flooring. The matter was left to him to be repaired.

Several routine matters were discussed and acted upon before the board adjourned.

President Hauck presided at the meeting, with Commissioners Harrison and Chandler present.

## KYSERIKE.

Kyserike, April 5.—Mr. and Mrs. William D. Van Demark pleasantly entertained a number of friends at dinner Saturday evening. Some fine piano selections were rendered by Miss Agnes Olson and Miss Helen Van Demark, accompanied by Thomas Sahlbeck as violinist. Hans Johnson gave several recitations, which were enjoyed by all present.

The party at J. Terwilliger's was well attended. All enjoyed a good time.

## NAPANOCH.

Napanoch, April 5.—Tuesday night Napanoch witnessed quite a parade of young lads parading around the town to show their loyalty to the stars and stripes, which were floating from nearly every residence. The march was headed by a leader followed by a boy carrying a large flag, then boys with drums and bugles. In the rear following were boys on bicycles playing the national airs on harmonicas and ending the march were two large shepherd dogs. They made you think of the spirit of 1776.

Mr. and Mrs. Melvin DeWitt and son of New Jersey are spending the Easter vacation with Mr. and Mrs. C. W DeWitt.

W. K. Shook has received another car of oats this week.

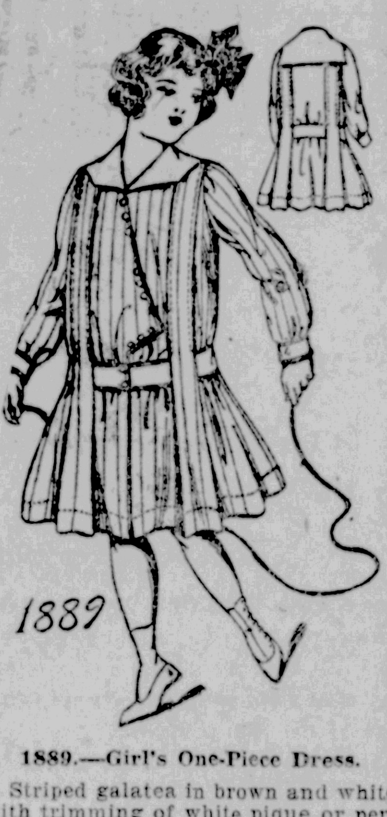
## OUR DAILY PATTERN.



1889.—Girl's One-Piece Dress.

Striped galatea in brown and white with trimming of white pique or percale would make a serviceable school dress in this style. It is also nice in blue or red serge or gabardine and for a best dress could be of velvet, corduroy or taffeta. The right front is shaped over the left and fulness is supplied in the deep box plaits, which may be stitched to any desired depth. The sleeve is a comfortable bishop model, finished with a neat cuff. A smart collar in sailor style trims the neck. The pattern is cut in 5 sizes: 4, 6, 8, 10 and 12 years. It requires 3¾ yards of 36 inch material for an 8 year size.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state the size wanted.

## SPRING SALADS.

By carefully covering dandelion plants with boards they will be white, tender and especially delicious for the first green things of spring. Add to them a little shredded green onion and a French dressing, well seasoned just before serving.

**Vegetable Harlequin.**—Cook a half peck of spinach in the water that clings to the leaves after washing, when tender drain, if there is any liquor save it as this is valuable in iron salts. Chop the spinach fine and season with salt, pepper and butter. Then three or four small beets, cut in dice and heated in a saucepan, with a little butter; season well and add a pint of peas, heated and seasoned in the same way. Arrange the spinach around a platter, inside the ring place the beets and in the middle the peas, keeping the line as straight as possible between the colors. Sprinkle the whole with finely minced parsley and send hot to the table.

**Spinach Salad.**—Wash and cook a half peck of spinach, if young and tender it will cook in its own juices and the water that clings to the leaves. Heat it very gradually and watch it to prevent burning. When tender, drain and chop it with six hard-cooked eggs. Add a cupful of toasted, buttered crumbs and a half cupful of minced cooked ham. Pack in small molds and chill on ice. Serve with olives and any desired salad dressing.

**Radish Salad.**—Slice as many radishes as are needed, lay them in overlapping slices around a bed of lettuce. Place on the lettuce a mixture of green vegetables mixed with salad dressing that are at hand.

**Cucumber Jelly Salad.**—Peel and cut two cucumbers in slices, add one slice of onion, a half teaspoonful of salt and a dash of pepper. Simmer until the cucumbers are tender in a pint of water, cold at first. Add a tablespoonful of gelatin, soften in water. Line a mold with fresh slices of cucumber, cut very thin and pour in the jelly slowly. Set in the ice chest to chill. Turn out on lettuce and serve with iced French dressing. Garnish with red peppers.

# SEIZURE TRIPLES ARMY TRANSPORTS

By Telegraph to The Freeman.

Washington, April 6.—The seizure today of German merchantmen in American ports tripled the army transport resources of this government, it was learned through an investigation by the department of commerce. Fourteen of the ships taken are capable of transporting 40,000 troops at 14 knots per hour. This is exclusive of the monster Vaterland. The entire American merchant marine is capable of carrying but 20,000.

Among the interesting facts that came to light when the American boarders succeeded in penetrating the mysteries of the ships' interiors was that each one is built as a naval auxiliary, being furnished with gun platforms and steering gear below the water line.

### Months to Make Repairs.

It was also learned that the contracts of the German crews provided that every man in the deck department and engine room force must be on leave from the Imperial German Navy and sworn to support the German government immediately war should be declared. The penalty for refusal to obey officers was death.

Engineers who have examined the ships upon which the crews carried out orders to destroy the engines report that it will take between three and four months to repair the damage. The ships must go into drydock and delay will be occasioned by the fact that the secret plans have all been destroyed.

### McAdoo's Statement.

The following statement regarding the seizures was made by Secretary of the Treasury McAdoo this afternoon:

"For the purpose of protecting the vessels from further injury and until a decision can be reached as to their proper disposition, customs guards have been placed on board all German merchant vessels anchored in the ports of the United States. The officers and crews have been taken into custody by the department of labor pending a determination of their status."

# BACK YARD GARDEN MOVEMENT MOVING

**Chamber of Commerce Now Seeks Co-operation of Manufacturers and Merchants in Offering Prizes for Reclamation of Waste Places.**

The special committeee of the Chamber of Commerce, who are seeking the promotion of cultivation of gardens in the back yards and vacant lots of our city, met and outlined plans to make this movement successful. The committee will work in hearty co-operation with other agencies including city officials, the farm bureau, the garden club and schools of our city.

What is now needed is definite co-operation on the part of all interested citizens and merchants. The committee wishes first of all to know just who will use their back yards or permit the use of vacant lots owned by them for the cultivation of this purpose. It is also necessary to know as soon as possible the names of all parties who wish to make use of the available land for the planting and cultivation of vegetables. Arrangements will be made to prepare the land by plowing, so that it can be worked with hand tools. The committee also hope to provide seeds for those unable to purchase same, and will arrange to give necessary advice and instruction by competent men.

The co-operation of the merchants is solicited in offering a series of prizes, either money or goods, including general prizes for the best gardens and special prizes for specific things, such, for example, as the best quality of potatoes and the largest quantity of same produced in a given area. Every citizen interested in this movement who has a back yard or vacant lot that he is willing to use for a vegetable garden, also every family or individual willing to cultivate such land, and every merchant who is willing to lend his assistance by offering prizes, as suggested above—all these are kindly requested to communicate at once with the Chamber of Commerce either in writing or by telephone (504).

REP SCHALL.
REPUBLICAN WHO NOMINATED CLARK FOR SPEAKERSHIP.

Representative Thomas D. Schall, of Minnesota, who described himself as a "Lincoln Reuublican," the blind member of Congress who placed Champ Clark in nomination for the speakership of the House, his action tending much to prevent a petty squabble over that office. In his speech Mr. Schall said that in time of peace a country divided against itself will stand, but that today such a condition might hold a serious menace. Apparently Mr. Schall concluded his remarks, forgetting to nominate Mr. Clark. The clerk of the House, the presiding officer, asked:

"Do you wish to nominate Mr. Clark?"

"I do," said Mr. Schall.

### An Odd Court Incident.

Sensational incidents are not uncommon in the closing stages of famous criminal trials. One of the most remarkable occurred in Melbourne on the last day of the trial of Ned Kelly, known as the "ironclad bushranger of Australia." A knife dropped from a gallery overhead and fell at the feet of the desperado in the dock. He had every temptation to grasp it and put an end to his existence, for there was not the slightest chance of his escaping the gallows. But it was promptly picked up by a bailiff, and its owner was arrested and brought before the judge. He pleaded that the occurrence was purely accidental, and the explanation was accepted by the court.

### Repudiated National Debts.

Spain, at one time by far the most powerful of European nations, was the earliest power to contract a national debt, which in 1555 only amounted to the modest sum of £1,000,000. By 1610 it had grown to £40,000,000 under Philip III., after whose death the whole of it was repudiated.

France in 1643 began to incur her debt, chiefly through the wars of Louis XIV. and the lavish expenditure in building Versailles. In the later years of Louis XVI. this amounted to £468,000,000, only to be repudiated on the establishment of the republic, when some creditors received 33 per cent and others nothing.

### Preparedness.

"Mamma, I wish I had a crutch," complained little Johnnie.

"What in the world does a boy with two good straight legs want with a crutch?"

"Well, mamma, it's a good thing to practice on in case you get hurt and have to use it some time."—Philadelphia Ledger.

# SEIZURE TRIPLES ARMY TRANSPORTS

By Telegraph to The Freeman.

Washington, April 6.—The seizure today of German merchantmen in American ports tripled the army transport resources of this government, it was learned through an investigation by the department of commerce. Fourteen of the ships taken are capable of transporting 40,000 troops at 14 knots per hour. This is exclusive of the monster Vaterland. The entire American merchant marine is capable of carrying but 20,000.

Among the interesting facts that came to light when the American boarders succeeded in penetrating the mysteries of the ships' interiors was that each one is built as a naval auxiliary, being furnished with gun platforms and steering gear below the water line.

### Months to Make Repairs.

It was also learned that the contracts of the German crews provided that every man in the deck department and engine room force must be on leave from the Imperial German Navy and sworn to support the German government immediately war should be declared. The penalty for refusal to obey officers was death.

Engineers who have examined the ships upon which the crews carried out orders to destroy the engines report that it will take between three and four months to repair the damage. The ships must go into drydock and delay will be occasioned by the fact that the secret plans have all been destroyed.

### McAdoo's Statement.

The following statement regarding the seizures was made by Secretary of the Treasury McAdoo this afternoon:

"For the purpose of protecting the vessels from further injury and until a decision can be reached as to their proper disposition, customs guards have been placed on board all German merchant vessels anchored in the ports of the United States. The officers and crews have been taken into custody by the department of labor pending a determination of their status."

A teacher in a Boston public school received an examination from a little girl of ten years, who wrote beneath the questions she had answered:

"If some of these questions are wrongly answered it will be because I have troubles of which the great world neither knows nor cares, therefore excuse wrong answers."—Exchange

# BACK YARD GARDEN MOVEMENT MOVING

**Chamber of Commerce Now Seeks Co-operation of Manufacturers and Merchants in Offering Prizes for Reclamation of Waste Places.**

The special committeee of the Chamber of Commerce, who are seeking the promotion of cultivation of gardens in the back yards and vacant lots of our city, met and outlined plans to make this movement successful. The committee will work in hearty co-operation with other agencies including city officials, the farm bureau, the garden club and schools of our city.

What is now needed is definite co-operation on the part of all interested citizens and merchants. The committee wishes first of all to know just who will use their back yards or permit the use of vacant lots owned by them for the cultivation of this purpose. It is also necessary to know as soon as possible the names of all parties who wish to make use of the available land for the planting and cultivation of vegetables. Arrangements will be made to prepare the land by plowing, so that it can be worked with hand tools. The committee also hope to provide seeds for those unable to purchase same, and will arrange to give necessary advice and instruction by competent men.

The co-operation of the merchants is solicited in offering a series of prizes, either money or goods, including general prizes for the best gardens and special prizes for specific things, such, for example, as the best quality of potatoes and the largest quantity of same produced in a given area. Every citizen interested in this movement who has a back yard or vacant lot that he is willing to use for a vegetable garden, also every family or individual willing to cultivate such land, and every merchant who is willing to lend his assistance by offering prizes, as suggested above—all these are kindly requested to communicate at once with the Chamber of Commerce, either in writing or by telephone (504).

REP SCHALL

REPUBLICAN WHO NOMINATED CLARK FOR SPEAKERSHIP.

Representative Thomas D. Schall, of Minnesota, who described himself as a "Lincoln Republican," the blind member of Congress who placed Champ Clark in nomination for the speakership of the House, his action tending much to prevent a petty squabble over that office. In his speech Mr. Schall said that in time of peace a country divided against itself will stand, but that today such a condition might hold a serious menace. Apparently Mr. Schall concluded his remarks, forgetting to nominate Mr. Clark. The clerk of the House, the presiding officer, asked:

"Do you wish to nominate Mr. Clark?"

"I do," said Mr. Schall.

### An Odd Court Incident.

Sensational incidents are not uncommon in the closing stages of famous criminal trials. One of the most remarkable occurred in Melbourne on the last day of the trial of Ned Kelly, known as the "ironclad bushranger of Australia." A knife dropped from a gallery overhead and fell at the feet of the desperado in the dock. He had every temptation to grasp it and put an end to his existence, for there was not the slightest chance of his escaping the gallows. But it was promptly picked up by a bailiff, and its owner was arrested and brought before the judge. He pleaded that the occurrence was purely accidental, and the explanation was accepted by the court.

### Repudiated National Debts.

Spain, at one time by far the most powerful of European nations, was the earliest power to contract a national debt, which in 1556 only amounted to the modest sum of £1,000,000. By 1610 it had grown to £40,000,000 under Philip III., after whose death the whole of it was repudiated.

France in 1643 began to incur her debt, chiefly through the wars of Louis XIV. and the lavish expenditure in building Versailles. In the later years of Louis XVI. this amounted to £468,000,000, only to be repudiated on the establishment of the republic, when some creditors received 33 per cent and others nothing.

### Preparedness.

"Mamma, I wish I had a crutch," complained little Johnnie.

"What in the world does a boy with two good straight legs want with a crutch?"

"Well, mamma, it's a good thing to practice on in case you get hurt and have to use it some time."—Philadelphia Ledger.

KINGSTON N Y, APRIL 6 1917

Columbia has at last taken her place on Civilization's Calvary—there is something singularly appropriate in our entering this war on the day commemorating a supreme sacrifice one of the great days of the Christian calendar Good Friday The Lenten season now closing has witnessed an entire Nation in calm contemplation over the prospect of war being forced upon us by a repetition of outrages The controversy between the President and a small but wilful element in Congress raged before and after inauguration and the people have given careful consideration to the historic discussion which ended this morning in the passage of the war resolution by an overwhelming majority in the House By the time these lines are being read we will be [illegible] with the Imperial German Government That there should be opposition to this course on the part of a [illegible] group of pacifists was only to be expected He kept us out of [illegible] was taken seriously by many sincere persons who took no account of the possible pressure of circumstance and who were unable to follow the Administration when only one [illegible] pointed the only way out Now that the die is cast a complete revulsion of sentiment upon the part of this small minority of peace propagandists is to be expected Even if such does not develop American unity is apparent and the patriotism of our people unquestioned We are going into this thing with our eyes open and with the object of cleaning up Prussianism and giving the death blow to militarism and a barbaric autocracy It is a tremendous task to which our Country has set herself and one that will entail sacrifices on the part of every man woman and child The time for talking has passed the decks are cleared for action action as efficient and as forceful as American genius and American patriotism can make it

Now that Congress has actually decided on making war it will immediately [illegible] ing an army and a navy capable of carrying that war to a successful conclusion in so far as American participation is concerned Unpreparedness is a condition peculiarly American for in all our wars the chariot of Mars has always been placed before the horse as represented by the arms of the National Defense That a universal service [illegible] will be one of the first enactments by the present Congress cannot be doubted any more than the fact that conscription will be resorted to [illegible] the only [illegible] of the [illegible] years from recruiting are insufficient for the needs of the Nation now about to go upon a war footing At the present [illegible] the regular army and the [illegible] National Guard are doing police duty work that does not call for a high order of military experience or training When these [illegible] are called [illegible] for active [illegible] it will be necessary to provide a substitute to serve in the home stations and where guard duty is being performed This will be apart from the training camps and mobilization of men intended to augment the regulars and guardsmen now awaiting orders which may take them to the seaboard and eventually to France To provide this substitute force is one of the paramount duties facing the several States In New York State Governor Whitman has already pointed the way for the immediate organization [illegible] by a wholesale recruiting of the entire citizen population There is important work to be done in Ulster county by a home defense organization and the Whitman idea is basically sound and sensible [illegible] It is to be hoped that any obstacles that may be preventing the organization of the Home Defense Committee by the duly authorized officials will not be found insuperable and that the situation will be clarified at the earliest possible moment Kingston has been known as a hotbed of patriotism for generations and nothing should be permitted to interfere with the proper cultivation and training of a defense organization for duty within the State during the times that try men's souls now awaiting us

Here in Kingston there is a volunteer social organization that has pledged its loyalty to the United States Government in this crisis and whose members have taken an oath to perform any and all duties that may be required of them in the city of Kingston N Y Taken literally this is a Home Guard whose boundaries of patriotic service are the city limits which is all right in so far as it goes but hardly in accordance with the request of the Governor It would seem obvious that a guard in order to be useful cannot be restricted to the narrow lines of the city limits where a police force [illegible] conditions cannot be [illegible] fully guarded has always maintained order For example half of the Wilbur Bridge which is an important structure on a railway line of immense value as a transportation unit lies in the town of Esopus [illegible] the line of the New York City aqueduct runs through a most sparsely settled section where a home guard could not be raised even

# PASSOVER FEAST BEGINS AT SUNSET

Passover or the Feast of Unleavened Bread begins this year Friday evening April 6th at sunset, and continues for seven days Orthodox Jews celebrate it for eight days that is until sunset Saturday April 14th The feast commemorates chiefly the deliverance of the children of Israel from their slavery to the Egyptians and so most of the ceremonial and ritual of Passover is intended to be reminiscent of the events and circumstances of that ancient deliverance Thus in the Temple at Jerusalem Paschal lambs were sacrificed to remind the people of the Lamb sacrificed by their ancestors at the command of Moses before they departed from Egypt because the children of Israel in their haste to leave the land of bondage did not have time to permit their bread to leaven It is the law to this very day, that during the entire Feast of Passover nothing but unleavened bread (Mazzoth) may be eaten On the seventh day of the feast the scriptural portion read in the synagogue is the song of triumph sung by the people at the Red Sea because this day is considered to be the anniversary of the dividing of the Red Sea

The characteristic feature of the feast is the ceremonial meal called the Seder conducted on the evening of the first day The ceremony endeavors to recall the events of the deliverance of old [illegible] bitter herbs are eaten to indicate how bitter were the lives of the slaves in Egypt A lamb bone is kept on the table to recall the Paschal lamb offered in Egypt and in the Temple A pastelike compound of nuts and fruits called Haroseth is eaten This is considered to be a reminder of the mortar used in building the [illegible] four cups of wine are drunk because four were the expressions of redemption used in the Exodus episode And as it is obligatory to tell the story of the Exodus every year the youngest or [illegible] of the household asks four sets of questions as to the nature of the [illegible] and the father answers telling the story of the Deliverance from Egypt

In Palestine Passover also [illegible] the ripening of the barley the earliest crop and [illegible] marks the close of the winter Thus the general [illegible] of the feast is freedom the freedom of nature from the [illegible] of winter and the freedom of Israel from bondage

Services will be held at Temple Emanuel Friday evening at 7 30 and Saturday morning at 10

KINGSTON, N. Y., APRIL 6, 1917.

Columbia has at last taken her place on Civilization's Calvary—there is something singularly appropriate in our entering this war on the day commemorating a supreme sacrifice, one of the great days of the Christian calendar, Good Friday. The Lenten season now closing has witnessed an entire Nation in calm contemplation over the prospect of war being forced upon us by a repetition of outrages. The controversy between the President and a small but wilful element in Congress raged before and after inauguration and the people have given careful consideration to the historic discussion which ended this morning in the passage of the war resolution by an overwhelming majority in the House. By the time these lines are being read we will be at war with the Imperial German Government. That there should be opposition to this course on the part of a small group of Pacifists was only to be expected. "He kept us out of war" was taken seriously by many sincere persons who took no account of the possible pressure of circumstance and who were unable to follow the Administration when duty so plainly pointed the only way out. Now that the die is cast, a complete revulsion of sentiment upon the part of this small minority of peace propagandists is to be expected. Even if such does not develop, American unity is apparent and the patriotism of our people unquestioned. We are going into this thing with our eyes open and with the object of cleaning up Prussianism and giving the death blow to militarism and a barbaric autocracy. It is a tremendous task to which our Country has set herself and one that will entail sacrifices on the part of every man, woman and child. The time for talking has passed; the decks are cleared for action, action as efficient and as forceful as American genius and American patriotism can make it.

* * *

Now that Congress has actually decided on making war, it will immediately turn its attention toward making an army and a navy capable of carrying that war to a successful conclusion in so far as American participation is concerned. Unpreparedness is a condition peculiarly American, for in all our wars the chariot of Mars has always been placed before the horse as represented by the arms of the National Defense. That a universal service law will be one of the first enactments by the present Congress cannot be doubted any more than the fact that conscription will be resorted to at an early stage if the returns from recruiting are insufficient for the needs of the Nation now about to go upon a war footing. At the present time the regular army and the Federalized National Guard are doing police duty, work that does not call for a high order of military experience or training. When this force is called out for actual fighting, it will be necessary to provide a substitute to serve in the home stations and where guard duty is being performed. This will be apart from the training camps and mobilization of men intended to augment the regulars and guardsmen now awaiting orders which may take them to the seaboard and eventually to France. To provide this substitute force is one of the paramount duties facing the several States. In New York State, Governor Whitman has already pointed to the way for the immediate organization of such auxiliary force.

* * *

Here in Kingston there is a volunteer social organization that has pledged its loyalty to the United States Government in this crisis and whose members have taken an oath to perform any and all duties that may be required of them in the city of Kingston, N. Y. Taken literally, this is a Home Guard whose boundaries of patriotic service are the city limits, which is all right in so far as it goes but hardly in accordance with the request of the Governor. It would seem obvious that a guard in order to be useful cannot be restricted to the narrow lines of the city limits where a police force whose competency cannot be successfully assailed has always maintained order. For example, half of the Wilbur bridge, which is an important structure on a railway line of immense value as a transportation unit, lies in the town of Esopus; the line of the New York City aqueduct runs through a most sparsely settled section where a home guard could not be raised even by a wholesale recruiting of the entire citizen population. There is important work to be done in Ulster county by a home defense organization and the Whitman idea is basically sound and sensible withal. It is to be hoped that any obstacles that may be preventing the organization of the Home Defense Committee by the duly authorized officials will not be found insuperable and that the situation will be clarified at the earliest possible moment. Kingston has been known as "a hotbed of patriotism" for generations and nothing should be permitted to interfere with the proper cultivation and training of a defense organization for duty within the State during the times that try men's souls now awaiting us.

## LITTLE LAUGHS.

Father—"Helen, isn't at about time you were entertaining the prospect of matrimony?" Daughter—"Not quite, pa. He doesn't call until eight o'clock."—Judge.

Hotel Clerk—"What's your line?" Commercial Traveller—"Yarns." Hotel Clerk—"I know that; I've heard some of 'em. But what do you sell?"—Buffalo Express.

"What sort of a fellow is Green?" "Oh, he's all right when you get to know him." "That I presume is a polite way of tellin me that he's disagreeable."—Detroit Free Press.

Edith—"Jack told me I was so interesting and so beautiful." Marie—"And yet you will trust yourself for life with a man who begins deceiving you so early."—Boston Transcript.

"Look here," stormed the angry subscriber, "in your issue of yesterday you said I was a lunatic. I want a retraction at once." "My friend," said the editor, "this paper never retracts. But we will print a statement that you have recovered your sanity."—Puck.

### Delayed in Transit.

The story is told of a veteran sportsman, well over 50 years of age, who went to a Navy Yard to enlist, having been refused at the other recruiting stations. "What's your age?" he was asked. "Just 37," was the prompt reply. The recruiting officer surveyed the would-be recruit critically. "Been delayed somewhere on the way, haven't you?" he asked.—Interborough Bulletin.

### Time for Diplomacy.

Two negroes were caught in a terrific thunderstorm in the South and took refuge in a barn, but before they could enter they were completely drenched. The thunder crashed and pealed between flashes of lightning and blinding dashes of rain. One of the darkies thought maybe a little strong language would ease his mind; but his companion remonstrated with him. "Look hean, yo' Charles Richard—yo' quit yo' cussin'. Don't yo' know dat Gawd's got yo' completely in His power jest now?"—Philadelphia Star.

### Overdoing It.

American people have a very high appreciation of the humor of Englishmen, and have been specially tickled by a story Colonel Cody used to tell. He said that some years ago an Englishman who had never been in the West before was his guest. They were riding through a Rocky Mountain canon one day, when suddenly a tremendous gust of wind came swooping down upon them and actually carried the Englishman clean off the wagon-seat. After he had been picked up, he combed the sand and gravel out of his whiskers and said: "I say! I think you overdo ventilation in this country!"—Tit-Bits.

### Holy Week at St. Colman's Church.

At St. Colman's Church, East Kingston, the tenebrae will be fittingly rendered this evening. The services Good Friday morning began at 8 a. m. The Three Hours' Agony was observed with a choral service and discourses on the seven last words of our saviour from 12 to 3 p. m. In the evening, after the tenebrae, the pastor will preach an appropriate sermon. Holy Saturday the ceremonies will begin at 7 a. m. Easter high mass Sunday at 11 a. m. Mass at St. Francis's Church, Goldrick's Landing, Sunday at 9 a. m. The musical selections to be rendered by Miss May Mooney, the organist of both churches, will be taken from the great masters. The Misses Alice and Ella Redden will render the vocal solos with exceptional ability. The pastor, the Rev. Francis P. J. Cummings, will be the celebrant in both churches. He will distribute Holy Communion at St. Colman's Church Sunday at 8 a. m.

# PASSOVER FEAST BEGINS AT SUNSET

Passover, or the Feast of Unleavened Bread, begins this year Friday evening, April 6th, at sunset, and continues for seven days. Orthodox Jews celebrate it for eight days, that is, until sunset Saturday, April 14th. The feast commemorates chiefly the deliverance of the children of Israel from their slavery to the Egyptians, and so most of the ceremonial and ritual of Passover is intended to be reminiscent of the events and circumstances of that ancient deliverance. Thus in the Temple at Jerusalem, Paschal lambs were sacrificed to remind the people of the Lamb sacrificed by their ancestors at the command of Moses before they departed from Egypt; because the children of Israel in their haste to leave the land of bondage did not have time to permit their bread to leaven, it is the law to this very day, that, during the entire Feast of Passover, nothing but unleavened bread (Mazzoth) may be eaten. On the seventh day of the feast the scriptural portion read in the synagog is the song of triumph sung by the people at the Red Sea, because this day is considered to be the anniversary of the dividing of the Red Sea.

The characteristic feature of the feast is the ceremonial meal, called the Seder, conducted on the evening of the first day. The ceremony endeavors to recall the events of the deliverance of old. Thus bitter herbs are eaten to indicate how bitter were the lives of the slaves in Egypt. A lamb bone is kept on the table to recall the Paschal lamb offered in Egypt and in the Temple. A pastelike compound of nuts and fruits called "Haroseth" is eaten; this is considered to be a reminder of the mortar used in building the treasure cities for Pharoah. Four cups of wine are drunk, because four were the expressions of redemption used in the Exodus episode. And as it is obligatory to tell the story of the Exodus every year, the youngest son of the household asks four sets of questions as to the nature of the feast, and the father answers telling the story of the Deliverance from Egypt.

In Palestine Passover also commemorates the ripening of the barley, the earliest crop, and so marks the close of the winter. Thus the general message of the feast is freedom, the freedom of nature from the thralldom of winter, and the freedom of Israel from bondage.

Services will be held at Temple Emanuel Friday evening at 7:30 and Saturday morning at 10.

### ALLABEN.

Allaben, April 5.—Mrs. E. H. Dickson and son of Arena have returned to their home, after spending two weeks with her parents.

Mr. and Mrs. William Risley of Stamford were guests of Mr. and Mrs. DeWitt Van Buren at Shandaken last Saturday and Sunday.

Mr. and Mrs. Ralph B. Van Keuren are receiving congratulations over the arrival of a little daughter, born at Kingston City Hospital last week.

Mrs. E. H. Dickson and son were guests of Mrs. Charles Clearwater last Friday at dinner.

Elizabeth Pearsall is spending her Easter vacation at her home this week.

George Harris of Peck Hollow is boarding with Willard Gulnick.

Mr. and Mrs. Burrel Schwarzwaelder of Chichester were guests of G. F. Van Keuren last Friday evening.

Mrs. G. F. Van Keuren has been spending a few days in Kingston this week.

Mr. and Mrs. Edward Ward were guests of Mr. and Mrs. Charles Clearwater last Sunday

Watson M. Freer Jr., of Kingston was a guest of G. F. Van Keuren last Sunday.

Orpha Krom, who has been seriously ill for a long time, is recovering and able to be out again.

Ethel Peck, who is employed at Stamford, was a guest of her father, Charles Peck, last Sunday.

### SAWKILL.

Sawkill, April 6.—Supervisor Frank Charlton, who has been out of town calling on friends, returned to his home on Tuesday.

Mr. and Mrs. Roy Myers have removed from this place to Lake Katrine where Mr. Myers is employed for Pratt Boice on his farm.

Henry Charlton left this place recently for Yonkers where he will be employed for the summer.

Sylvester Myers has been serving on the jury during the past week.

Miss Esther Myers is spending some time with her uncle, Roy Myers, at Lake Katrine.

Arnold Michaelis was a caller in this place on Sunday.

Miss Elizabeth Myers has been visiting her aunt, Mrs. B. Winne, on the Plank Road for some time.

Harry Hulsair has sold his horse to Peter Bonesteel and has bought an automobile.

Orren Bonesteel and family moved to Kingston on Monday and will reside at 27 Lafayette avenue, which property he bought of George L. Kinkade.

J. James Main purchased the property formerly owned by Orren Bonesteel of this place.

Mr. and Mrs. George McLain of Yonkers visited Mr. and Mrs. R. J. Charlton recently.

### Good Friday Service.

One of the most impressive services in recognition of Good Friday will be given at the First Dutch Church this evening at 7:30 o'clock, when Stainer's Lenten Cantata, "The Crucifixion" will be sung by the regular choir of the church, assisted by Chauncey Main, baritone; Arthur Rifenbary, tenor, and John Hall, bass. W. Whiting Fredenburgh is the organist and choirmaster. The public is cordially invited to attend this service.

# EASTER SHOES

Glad Eastertide is to this store an event of importance. We have been preparing for this occasion for months.

This year we have ready for you a real feast of fashion.

Every new style has been carefully scrutinized and the best of all has been selected for our customers.

## Beautiful, Fashionable, Economical Footwear

A shoe was once considered only as a foot covering. A necessary article to protect the extremities from the weather. Now shoes are beautifiers. They lend more charm to women's apparel than any other article of her wardrobe.

We have a complete stock of beautiful shoes that fit in the novelties and conservative shoes in our Easter offering for ladies' and men' wear.

Boys', Misses' and Children's Shoes in the most fashionable leathers and styles.

# EASTER HATS

Your finishing touch to a good appearance on Easter or any time is your hat. Doubly so in this season of good dressing. Whether you want an Ultra-Modish block or a very quiet model, you will find it here in soft, felt or derby.

A remarkably graceful and dressy hat, with just the touch of smartness that all like to see in these young-feeling days is included in our line for Easter.

Our lines include the Knox, Stetson, Young's, Wilson's and Murphy's Hats, we think the most complete showing we ever had on sale.

Will be glad to show you our Easter Shoes or Hats or both.

"FINDING STOLEN FORD." Recovering a stolen Ford is some job. This car was stolen July 10th from a member of the Genesee Valley Automobile Club, recovered September 23d, man arrested and convicted.

This Club protects you the same way. In 1914 an association composed of the Poughkeepsie, Newburgh and Ulster County Clubs was formed to protect the members' cars from theft. The aforesaid clubs will pay a reward of 100 dollars for the arrest and conviction of any person stealing a member's car. Notify the secretary and he will immediately notify the secretaries of affiliated clubs and they in turn notify all garages and officers to look out for car. Also the State Association is notified and they do their share in giving publicity throughout the state.

## *Is This Worth $5.00 a Year to You?*

More than 100 bills affecting motorists have been introduced this session, most of these are a money getting nature. The fact that they are not all passed is due to the AUTOMOBILE CLUBS. # American Mineral Oil

PRACTICAL HEALTH HINT.

Use of Mineral Oil.

Dr. Le Tanneur contributes to the Paris Medical some practical points in the use of mineral oil in constipation The oil, he says, is in no way digested or even modified by the juices of the stomach and intestines. It acts as a lubricant and nothing else, though it tends to heal abrasions of the intestinal wall caused by rough particles of food.

The New York Medical Journal says mineral oil should be taken either before breakfast or after dinner, two tablespoonfuls being a dose. Its use should be continued every day for at least a fortnight, when the bowels will continue to work naturally without it, for the mineral oil is in no sense a cathartic, but it will cure constipation.—Kingston Daily Freeman, February 17, 1917.

# EASTER SHOES

Glad Eastertide is to this store an event of importance. We have been preparing for this occasion for months.

This year we have ready for you a real feast of fashion.

Every new style has been carefully scrutinized and the best of all has been selected for our customers.

## Beautiful, Fashionable, Economical Footwear

A shoe was once considered only as a foot covering. A necessary article to protect the extremities from the weather. Now shoes are beautifiers. They lend more charm to women's apparel than any other article of her wardrobe.

We have a complete stock of beautiful shoes that fit in the novelties and conservative shoes in our Easter offering for ladies' and men' wear.

Boys', Misses' and Children's Shoes in the most fashionable leathers and styles.

# EASTER HATS

Your finishing touch to a good appearance on Easter or any time is your hat. Doubly so in this season of good dressing. Whether you want an Ultra-Modish block or a very quiet model, you will find it here in soft, felt or derby.

A remarkably graceful and dressy hat, with just the touch of smartness that all like to see in these young-feeling days is included in our line for Easter.

Our lines include the Knox, Stetson, Young's, Wilson's and Murphy's Hats, we think the most complete showing we ever had on sale.

Will be glad to show you our Easter Shoes or Hats or both.

AT 8 O'CLOCK

"FINDING STOLEN FORD." Recovering a stolen Ford is some job. This car was stolen July 10th from a member of the Genesee Valley Automobile Club, recovered September 23d, man arrested and convicted.

This Club protects you the same way. In 1914 an association composed of the Poughkeepsie, Newburgh and Ulster County Clubs was formed to protect the members' cars from theft. The aforesaid clubs will pay a reward of 100 dollars for the arrest and conviction of any person stealing a member's car. Notify the secretary and he will immediately notify the secretaries of affiliated clubs and they in turn notify all garages and officers to look out for car. Also the State Association is notified and they do their share in giving publicity throughout the state.

## *Is This Worth $5.00 a Year to You?*

More than 100 bills affecting motorists have been introduced this session, most of these are a money getting nature. The fact that they are not all passed is due to the AUTOMOBILE CLUBS. Dear fellow motorist, are we worth $5.00 a year or do you want to sponge the fruits of the other fellows' labor.

# PLUMBING REPAIR BIDS ARE OPENED

**County Auditors Look Over Tenders For Jail Improvements Ranging From $1,327 to $2,032.**

Bids for plumbing repair work in the Ulster county jail were opened by the county auditors at their regular meeting Thursday night. The plans for the work were taken to Albany today to be submitted to the State Prison Commission for approval, and if approved will be returned to the auditors, who will meet next Friday night to determine whether the work shall be done, and if so, to award the contract.

Bids were submitted for the work on the basement floor, first, second and third floors, the bidders being requested to specify the cost using the Haines-Jones-Catbury valves, and also the Wolff valves. # RIVER AND CREEK NAVIGATION NOTES

**Snow Storm Delayed Upriver Tow—Norwich Off Dry Dock and Taken to Cornell Shops—Oswego's Smokestack Removed.**

The snow storm of Thursday night delayed the upriver tow from New York city causing it to tie up for the night below Newburgh. It did not seem to interfere the down river tow from Albany, however.

The Norwich, which sprung aleak and sunk in the Rondout creek, and was raised the other day and taken to Hiltebrant's dry dock for repairs to her hull, was towed back to the Cornell shops today by the tug Rob where she will undergo an overhauling.

The Oswego is also at the Cornell shops. Her smokestack has been removed as it was considered in a dangerous condition and liable to fall.

The tows are running heavy both up and down the river.

The steamer Newburgh of the Central Hudson line which sunk a coal barge in the river off New York some time ago, was on the Rondout [illegible] Today the Odell was on the route.

## CASEY AND THE BAT.

**Struck Out by Bartender, His Pitching Arm is Dislocated.**

Jim Casey, who is a former resident of High Falls according to his story, called at the county jail on Thursday evening and asked for a night's lodging. Casey was suffering from a "fractured arm" and this morning he was cared for by Jail Physician Buckley, who discovered that Casey's left arm was not fractured but the bone at the elbow had been driven from the socket by a blow. After caring for the injury and putting on a bandage, Casey proceeded on his way.

It appears from Casey's story that he was walking to Poughkeepsie and entering a thirst parlor in the central part of the city became engaged in an argument and the proprietor drew a baseball bat and struck Casey on the arm with such force as to drive the bone from the socket. Casey first gave his home as High Falls, but when confronted by a High Falls resident changed his story and said he had not been in High Falls, his former home, for 12 years, but had been working as a pipe-fitter in other cities. His last job was in Olean.

As Casey left the court house for the Bridge City he was heard to murmur as he held his left arm, "that man is a murderer, if he had hit me on the head it would have killed me."

**Life Expectancy.**

According to the public health service, life expectancy during infancy and childhood has increased because of the more intelligent care of babies and young children, but life expectancy after the age of forty is less now than it was thirty years ago, because those who have arrived at years of discretion do not exercise discretion for themselves and take sufficient exercise to overcome modern conditions. Many more people are engaged in sedentary occupations than formerly, which deprives them of natural assistance afforded by physical exercise in eliminating through the skin and lungs the waste products of the body.—Collier's Weekly.

**Winged Creatures.**

"Is your wife trying to make a social butterfly of you?"

"No," replied Mr. Cumrox. "I don't stand any chance of being a winged creature of airy grace. If you want to classify me you'll have to get away from the insects and try the birds. I'm the goose that lays the golden eggs."—Washington Star.

# PLUMBING REPAIR BIDS ARE OPENED

**County Auditors Look Over Tenders For Jail Improvements Ranging From $1,327 to $2,032.**

Bids for plumbing repair work in the Ulster county jail were opened by the county auditors at their regular meeting Thursday night. The plans for the work were taken to Albany today to be submitted to the State Prison Commission for approval, and if approved will be returned to the auditors, who will meet next Friday night to determine whether the work shall be done, and if so, to award the contract.

Bids were submitted for the work on the basement floor, first, second and third floors, the bidders being requested to specify the cost using the Haines-Jones-Catbury valves, and also the Wolff valves. Besides submitting estimates for each floor separately, the contractors submitted bids for the entire job, using each of the valves mentioned, as follows:

The bids for the total jobs were as follows:

| | H. J. & C. Valve. | Wolff Valve. |
|---|---|---|
| L. F. Bannon & Co. | $1,226.50 | $1,441.50 |
| Edw. D. Coffey | 1,777.00 | 2,032.00 |

# SUBMARINES SINK HORSE TRANSPORT

By Telegraph to The Freeman.

Washington, April 6—Outrage was added to outrage in the sinking without warnng of the Leyland horse transport Canadian, upon which there were 56 American citizens, a cable from Consul Frost, at Queenstown, revealed today. More than one U-boat participated in the attack, it became known, four torpedoes striking the ship in entirely different places. The consul described this act as "flagrant contempt of the safety of the boats," as the survivors rowed away.

The Canadian, which carried 800 horses and a crew of 157, was attacked by at least two submarines, several of the Americans seeing that many periscopes. The first torpedo struck aft to starboard, the second aft to port, the third forward to port, and the fourth amidships.

After several hours in the boats the crew was landed without casualty.

# MILK FOOD VALUE HIGHER THAN MEAT

Comparisons of Proteins and Prices Given by Government Sharps in Interesting Summary—The Nutritive Contents.

By Telegraph to The Freeman.

Washington, D. C., April 6.—Economy in the diet does not always depend upon limiting the use of certain foods, but sometimes it is a question of actually increasing the use of foods which furnish nutritive material at relatively low cost. Milk belongs to the latter class, and the housewife would do well to study its food value, and decide whether her family is using as much as it should. The average person in this country uses only a little more than a half-pint of milk daily, and this quantity can very profitably be increased when safe milk is available.

Many people think of milk only as a beverage, but if they understood that it is in reality a nourishing food, they would increase their daily allowance.

We eat foods for two main reasons: First, to renew body wastes and promote growth by forming new tissues and fluids; and second, to supply energy for carrying on body functions. Milk contains the body-building materials (protein and mineral substances, such as lime and phosphorus) and also supplies energy for carrying on the body functions.

The following table, compiled by specialists of the U. S. Department of Agriculture, shows the quantities of various foods needed to supply as much protein or energy as one quart of milk.

| Protein. | | Energy. | |
|---|---|---|---|
| 1 | quart of milk. | 1 | quart of milk. |
| 7 | ounces of sirloin steak. | 11 | ounces of sirloin steak. |
| 6 | ounces of round steak. | 12 | ounces of round steak. |
| 4.3 | eggs. | 5½ | eggs. |
| 8.6 | ounces of fowl. | 10.7 | ounces of fowl. |

Another method of comparison is shown by the table below, in which the relative value of certain foods, as economical sources of protein, is given:

To Supply Protein at Equal Cost.

| Milk at | Is as cheap as Sirloin Steak at | Or Eggs at |
|---|---|---|
| 7 cents a quart. | 16.3 cents a pound. | 17.6 cents a dozen. |
| 8 cents a quart. | 18.6 cents a pound. | 20.1 cents a dozen. |
| 9 cents a quart. | 21.0 cents a pound. | 22.1 cents a dozen. |
| 10 cents a quart. | 23.3 cents a pound. | 25.1 cents a dozen. |
| 12 cents a quart. | 27.9 cents a pound. | 30.2 cents a dozen. |
| 15 cents a quart. | 34.9 cents a pound. | 37.7 cents a dozen. |

According to this table, if milk is selling at 10 cents a quart, sirloin steak must sell as low as 23.3 cents a pound, and eggs at 25.1 cents a dozen, to supply protein at equal cost.

To Supply Energy at Equal Cost.

| When Milk is | Sirloin Steak must not be more than | And Eggs not more than |
|---|---|---|
| 7 cents a quart. | 9.9 cents a pound. | 9.3 cents a dozen. |
| 8 cents a quart. | 11.3 cents a pound. | 10.6 cents a dozen. |
| 9 cents a quart. | 12.8 cents a pound. | 11.9 cents a dozen. |
| 10 cents a quart. | 14.2 cents a pound. | 13.2 cents a dozen. |
| 12 cents a quart. | 17.0 cents a pound. | 15.9 cents a dozen. |
| 15 cents a quart. | 21.3 cents a pound. | 19.8 cents a dozen. |

It can be seen, therefore, that milk even at 15 cents a quart is a cheap source of energy as compared with sirloin steak and eggs.

In comparing foods it is necessary to consider both the protein and the energy furnished. Neither one alone can properly be used as a basis of comparison, nor is there any correct way to reckon the value of a food by considering the total amount of nutritive elements.

It is very difficult to compare foods on the basis of the mineral matter they contain, but all physiologists agree that milk is extremely valuable from this standpoint. Indeed it is the food prepared by nature especially for growth and development of the young. A quart of milk a day is a good allowance for a young, growing child.

In addition to being an economical food, milk is usually easily digested, and requires no cooking or other preparation for the table. Specialists of the departmemt have found also that it is digested better when taken with other foods.

There are innumerable ways to use milk in cookery, such as in puddings, blancmange, soups, chowder, sauces, "junket," etc., and in all these ways it is both appetizing and nourishing.

## Card of Thanks.

Mr. and Mrs. George DuBois wish to express their heartfelt thanks and deep appreciation for the countless number of kindnesses shown them during the recent illness and at the time of the death of their daughter, Blanche M. DuBois. Besides the many friends, the young people of the senior class of the high school, the girls of the Kitkoit Club and the younger girls of the Junior Auxiliary, both of St. John's Church, and the Pythian Sisters have been most generous in their sympathy and helpfulness. All of these gracious services were as sincerely appreciated by the beloved daughter as by her parents, Mr. and Mrs. George DuBois.—Advertisement.

## MILK FOOD VALUE HIGHER THAN MEAT

### Comparisons of Proteins and Prices Given by Government Sharps in Interesting Summary—The Nutritive Contents.

By Telegraph to The Freeman.

Washington, D. Milk belongs to the latter class, and the housewife would do well to study its food value, and decide whether her family is using as much as it should. The average person in this country uses only a little more than a half-pint of milk daily, and this quantity can very profitably be increased when safe milk is available.

Many people think of milk only as a beverage, but if they understood that it is in reality a nourishing food, they would increase their daily allowance.

We eat foods for two main reasons: First, to renew body wastes and promote growth by forming new tissues and fluids; and second, to supply energy for carrying on body functions. Milk contains the body-building materials (protein and mineral substances, such as lime and phosphorus) and also supplies energy for carrying on the body functions.

The following table, compiled by specialists of the U. S. Department of Agriculture, shows the quantities of various foods needed to supply as much protein or energy as one quart of milk.

| Protein. | | Energy. | |
|---|---|---|---|
| 1 | quart of milk. | 1 | quart of milk. |
| 7 | ounces of sirloin steak. | 11 | ounces of sirloin steak. |
| 6 | ounces of round steak. | 12 | ounces of round steak. |
| 4.3 | eggs. | 8½ | eggs. |
| 8.6 | ounces of fowl. | 10.7 | ounces of fowl. |

Another method of comparison is shown by the table below, in which the relative value of certain foods, as economical sources of protein, is given:

**To Supply Protein at Equal Cost.**

| Milk at | Is as cheap as Sirloin Steak at | Or Eggs at |
|---|---|---|
| 7 cents a quart. | 16.3 cents a pound. | 17.6 cents a dozen. |
| 8 cents a quart. | 18.6 cents a pound. | 20.1 cents a dozen. |
| 9 cents a quart. | 21.0 cents a pound. | 22.1 cents a dozen. |
| 10 cents a quart. | 23.3 cents a pound. | 25.1 cents a dozen. |
| 12 cents a quart. | 27.9 cents a pound. | 30.2 cents a dozen. |
| 15 cents a quart. | 34.9 cents a pound. | 37.7 cents a dozen. |

According to this table, if milk is selling at 10 cents a quart, sirloin steak must sell as low as 23.3 cents a pound, and eggs at 25.1 cents a dozen, to supply protein at equal cost.

**To Supply Energy at Equal Cost.**

| When Milk is | Sirloin Steak must not be more than | And Eggs not more than |
|---|---|---|
| 7 cents a quart. | 9.9 cents a pound. | 9.3 cents a dozen. |
| 8 cents a quart. | 11.3 cents a pound. | 10.6 cents a dozen |
| 9 cents a quart. | 12.8 cents a pound. | 11.9 cents a dozen. |
| 10 cents a quart. | 14.2 cents a pound. | 13.2 cents a dozen. |
| 12 cents a quart. | 17.0 cents a pound. | 15.9 cents a dozen. |
| 15 cents a quart. | 21.3 cents a pound. | 19.8 cents a dozen. |

It can be seen, therefore, that milk even at 15 cents a quart is a cheap source of energy as compared with sirloin steak and eggs.

In comparing foods it is necessary to consider both the protein and the energy furnished. Neither one alone can properly be used as a basis of comparison, nor is there any correct way to reckon the value of a food by considering the total amount of nutritive elements.

# AMATEUR CHICKEN RAISERS TOLD HOW

### Lay of the Land for Poultry Yards and Houses Outlined by Experts—Breeds of Fowls and Brands of Feed.

By Telegraph to The Freeman

Washington, D. C., April 6. For the family which wishes to keep poultry for home consumption rather than for the market, the so called general-purpose breeds are better suited than what are known as the egg laying breeds. Plymouth Rocks, Wyandottes, Rhode Island Reds and Orpingtons are all good varieties for the average person who does not intend to go into the poultry business on a considerable scale. These breeds are good layers and they also make good table poultry. Furthermore they will hatch their own eggs and brood their own chickens, whereas the Leghorns and other breeds of the egg-laying class do not sit and the use of expensive incubators and brooders is necessary in order to perpetuate these flocks.

The prime essentials for a small poultry house are fresh air, dryness, sunlight and space enough to keep the birds comfortable. For the general-purpose breeds about 4 square feet of floor space should be allowed for each bird. The fowls should also have as much outside space as possible to run in. If this area is too small the ground quickly becomes foul and in time makes it difficult to rear chickens with good success. In order to avoid foulness it is advisable to divide the lot and to sow part of it to the quick growing grains such as oats, wheat or rye. The hens are turned on to the growing grain when it is a few inches high. Under this method the yards may be changed every three or four weeks during the growing season. A combination that has proved successful consists of 6 or 7 bushels of equal parts of oats and wheat to the acre, wheat alone being used for the last seeding in the fall. For the convenience of those who have only small areas at their disposal, it may be stated that an acre contains 43,560 square feet.

To secure a satisfactory number of eggs the fowls should be fed both a dry mash and a scratch ration. The dry mash may consist of equal parts of corn meal, bran, middlings and beef scrap. This should be kept before the birds in a hopper all the time. A good scratch ration is made up of equal parts of corn, wheat and oats fed in a litter 4 to 5 inches deep twice daily. It is desirable that the bird should eat about as much of this as of the mash. This [illegible] feeding about 1 quart of [illegible] 12 Plymouth [illegible] Leghorns and [illegible] of mash [illegible] will also be [illegible] and those may be made up [illegible] mash in place of the [illegible] In this case the table [illegible] if it contains much meat is [illegible] for the beef scrap. If it [illegible] no contain any considerable [illegible] of meat it should merely be [illegible] to the dry mash already [illegible]

### The Barber's Query.

There is always something interesting in a barber shop. For instance, we always get a sly grin when a customer wearing on his face what is very plainly a six days growth of beard is asked by the barber whose chair he approaches "Shave, sir?" One can't help wondering what the barber thinks he might have come in to have done.—Detroit Free Press.

Usually waste table products will also be available, and these may be made up into a moist mash in place of the dry mash. In this case the table scrap if it contains much meat, is substituted for the beef scrap. If it does not contain any considerable portion of meat, it should merely be added to the dry mash already described.

# CURRANT GROWERS GET RECOGNITION

**White Pine Blister Rust Elimination Bill Amended to Protect Hudson Valley Industry—Senator Walton Acts With J. A. Hepworth After Hearings.**

Currant growers of the Hudson Valley, under the leadership of J. A. Hepworth and backed by Senator Walton, chairman of the Conservation Committee, have secured recognition of their industry in pending legislation designed to protect the white pine from the ravages of the blister rust. This disease is spread through the medium of black and flowering currants and the Conservation Department sought authority to clean up currant patches, root and branch, wherever such course was necessary in its judgment. After hearings on the bill to accomplish that end, important changes have been made and more equitable dealing assured for the currant growers as will be noted by a careful reading of the measure given in full below by which the currant bushes are protected in certain areas at the expense of insignificant growths of white pine and in other areas the currants will be destroyed for the benefit of the forest growth. The amended bill is as follows:

An act to amend the conservation law, in relation to control and suppression of white pine blister rust and currant rust.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Article four of chapter six hundred and forty-seven of the laws of nineteen hundred and eleven, entitled "Act act relating to conservation of land, forests, waters, parks, hydraulic power, fish and game, constituting chapter sixty-five of the consolidated laws," known as the conservation law, as amended by chapter four hundred and fifty-one of the laws of nineteen hundred and sixteen and by chapter seventy-one of the laws of nineteen hundred and seventeen, is hereby amended by inserting after section fifty-seven a new section to be known as section fifty-seven-a, to read as follows:

Section 57-a. Control of white pine blister rust and currant rust. For the purpose of suppressing and controlling white pine blister rust and currant rust, the following provisions shall apply:

1. Black currant declared a public nuisance. Planting, growing, propagating, cultivating or selling plants, roots or cuttings of any species of cultivated black currants (ribes nigrum, ribes adoratum or ribes aureum) within the state is hereby prohibited, except undiseased ribes nigrum in districts described in subdivision two. Such bushes, roots, cuttings or plants now planted or growing may be destroyed by the agents of the conservation commission, except those above permitted.

2. Fruiting currant districts defined. Districts where the growing of currants for the production of fruit is carried on extensively and is an important commercial enterprise shall be determined and designated as "fruiting currant districts," and in such districts the provisions of subdivison three of this section shall apply. The location and extent of such districts shall be determined by the conservation commission and the state department of agriculture.

3. Control measures in fruiting currant districts. In any fruiting currant district all five-leafed pine trees or five-leafed pine seedlings may be cut down or eradicated and the planting, growing or possession of them prohibited. Any diseased plants of the genus ribes or grossularia (currants and gooseberries) within such districts may be destroyed and fair compensation made therefor.

4. Control measures outside of fruiting currant districts. Whenever such action is desirable as a means of controlling white pine blister rust or currant rust, the commission or its duly authorized agents may cut down any five-leafed pine trees or eradicate any five-leafed pine seedlings or plants of the genus ribes or grossularia (currants and gooseberries) either wild or cultivated, except within nurseries which are annually certified by the state department of agriculture to be free from disease.

5. Quarantine regulations. The commission shall have the authority, by order, to establish quarantine districts in any part or parts of the state. In such districts it may prohibit the possession of any five-leafed pine trees or plants of the genus ribes or grossularia (currants and gooseberries) or so much thereof as is deemed necessary. It may also prohibit the transportation of any plants, roots or cuttings of the genus ribes or grossularia (currants and gooseberries) from or to any quarantine district within the state, or from any diseased area or locality in which the disease exists outside of the state to any point within the state. Such prohibitions shall be effective on and after the tenth day from the date of the order made with respect thereto. On the making of such an order the commission shall cause a certified copy of the same to be filed in the office of the clerk of each county affected by such quarantine and shall give such other notice thereof as it may deem necessary. The provisions of this subdivision shall not apply to undiseased cultivated plants or the fruit of diseased plants of the genus ribes or grossularia (currants and gooseberries) included within fruiting currant districts or the merchantable contents of any pine trees provided any diseased part thereof is first destroyed.

6. Diseased trees or plants defined. A plant of the genus ribes or grossularia which is visibly infected by cronartium ribicola or any five-leafed pines upon which white pine blister rust has been found growing shall be construed to be and be, within the meaning of this section only, a diseased plant, and, as such, may be destroyed under the provisions of this section.

7. Authority to eradicate and compensation. Agents or employes of the conservation commission may enter upon any land, in order to carry out the provisions of this section, if proper precautionary measures are taken by them to prevent the spread of this disease and no action for trespass shall lie therefor. Fair compensation shall be allowed for all trees or plants destroyed. The rate of such compensation shall be determined by the commissioner of agriculture or said committee appointed by him within 30 days after passage of this act and annually thereafter prior to May 1.

Section 2. This act shall take effect immediately.

### WOODSTOCK.

Woodstock, April 5.—The Epworth League of the M. E. Church held their monthly business and social meeting on Wednesday evening, April 4, at the home of Mr. and Mrs. Griffin Herrick. There were about 30 present. The business meeting was called to order by O. W. Mosher, president. After the business meeting adjourned, Mrs. Griffin Herrick had charge of the social. There was some singing out of their new song books, then a hat trimming contest by the gentlemen. Five minutes was the time allowed. G. W. Elwyn carried off the prize. Then a recipe for cooking and baking. Scott Jones took the prize on baking pancakes, Bessie Russell on drawing a blind pig. After the contests closed refreshments were served by the ladies. At 10:45 a unanimous vote of thanks was given to Mr. and Mrs. Herrick for the creditable manner in which they entertained the league.

Business is brightening up. Mr. Twaddell has a large force of men working on the road which he is constructing for Mr. Boogh.

Came Lasher, our old drover, has commenced business. He went across the river to Dutchess county Tuesday with a drove of cattle.

There will be no preaching service in the M. E. Church on April 8 because of the pastor being away to conference. We expect Mr. Kerr to return to the M. E. Church as its pastor, as we asked for by the quarterly conference of said church, for there is a good feeling between pastor and people.

Elwyn Brothers' store is taking on a new appearance under the supervision of Norman Elwyn. Everything looks new and bright with a fine display of groceries. Norman is a hustler. We expect to soon welcome his brother, G. H., home for good from Albany, where he has been for the past 11 weeks.

### WHITFIELD.

Whitfield, April 5.—Mrs. Simon Hornbeck spent Monday afternoon in Kerhonkson.

Mr. and Mrs. DeWitt Barley and family attended a house party at the Winkleman home at Stone Ridge one night last week.

Mrs. Arthur G. Davis is spending the week with her mother at Leibhardt.

Miss Carrie Depuy of Mettacahonts spent Saturday night and Sunday with her sister, Mrs. Jerome Enderly.

Mr. and Mrs. Ernest Christiana of Kyserike spent Sunday with Mr. and Mrs. Arthur G. Davis.

Our new teacher, Miss Van Wyck, is much liked by her pupils.

DeWitt Hornbeck was in Kingston Monday.

Mr. and Mrs. George Stokes and family motored to Kerhonkson Saturday evening.

Glycerin was once a byproduct of the soap making industry, the disposal of which gave the manufacturers some concern.

An act to amend the conservation law, in relation to control and suppression of white pine blister rust and currant rust.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Article four of chapter six hundred and forty-seven of the laws of nineteen hundred and eleven, entitled "Act act relating to conservation of land, forests, waters, parks, hydraulic power, fish and game, constituting chapter sixty-five of the consolidated laws," known as the conservation law, as amended by chapter four hundred and fifty-one of the laws of nineteen hundred and sixteen and by chapter seventy-one of the laws of nineteen hundred and seventeen, is hereby amended by inserting after section fifty-seven a new section to be known as section fifty-seven-a, to read as follows:

Section 57-a. Control of white pine blister rust and currant rust. For the purpose of suppressing and controlling white pine blister rust and currant rust, the following provisions shall apply:

1. Black currant declared a public nuisance. Planting, growing, propagating, cultivating or selling plants, roots or cuttings of any species of cultivated black currants (ribes nigrum, ribes adoratum or ribes aureum) within the state is hereby prohibited, except undiseased ribes nigrum in districts described in subdivision two. # D. A. R. OFFERS USE OF CHAPTER HOUSE

An important meeting of Wiltwyck Chapter, D. A. R., was held at the chapter house on Thursday afternoon, Mrs. Philip Elting, the regent, presiding. Mrs. Frank J. LeFevre and Miss Martha Anderson of New Paltz were transferred from the Messereau Chapter of Staten Island to Wiltwyck Chapter.

The regent spoke with feeling of the recent death of Mrs. Alton B. Parker, formerly a member of Wiltwyck Chapter, and one who was always loyal and active in her support of every good work of the chapter.

The matter was brought up for furnishing knitted sleeveless jackets, mufflers and wristlets for the men of one submarine. The chapter pledged itself to furnish the 20 sets necessary for one submarine sailors, and the regent requested that any member of the chapter or any woman who is not a member of the chapter but who is willing to assist with the work, communicate with the following members: Mrs. A. V. V. Kenyon, Miss Margaret Merritt, Mrs. Herbert Houghtaling.

It was voted that the chapter should offer the use of one of its rooms to the Ulster County Chapter of the American Red Cross, for the work of the chapter, and when a little later, Mrs. C. N. Reed, chairman of the Red Cross Chapter, was present the offer was formally made. Mrs. Reed expressed the sincere appreciation and thanks of the Red Cross Chapter for this timely offer. The following chairmen were appointed to co-operate with the Red Cross workers: Miss Mary Baker, Mrs. William M. Davis, Mrs. Hyman Roosa, Mrs. Frank Merritt and Mrs. C. E. Hasbrouck. The entire membership of the D. A. R. was made a committee of the whole to actively engage in the patriotic work.

Fred Snyder, of Company M, then spoke about the importance of raising the American Red Cross to the same standard of efficiency, numbers and financial resources as is the Red Cross in other countries. As it had been suggested that Wiltwyck Chapter take up the work of the comfort kits for the soldiers, Mr. Snyder showed such a kit as the company received from the government and called attention to some advantageous and some unfavorable features of these kits.

Mrs. Reed then spoke of the urgent need of surgical dressings being made, and made in as large numbers and as fast as possible, as the Red Cross is not at all adequately provided with such absolute necessities, and it will be a difficult matter to supply those needs once there is war. She stated that the local Red Cross through the chairmen of the surgical dressings committees were negotiating for the purchase of large quantities of gauze, muslin, etc., which they would furnish to be made up according to Red Cross directions. It was further stated that four women of the Red Cross Chapter would on Friday be in New York city receiving explicit instructions as to the making of the surgical dressings, and they in turn would be prepared to give the necessary instruction to the chairmen appointed from the D. A. R. Whether the chapter should take up the making of the comfort kits or the surgical dressings or both was left to the Chapter to decide. It was arranged that hereafter the Wiltwyck Chapter members should meet on Wednesday afternoons at 2 o'clock to do Red Cross work.

The program for the afternoon was in the nature of an entertainment provided by Colonel Bruyn Chapter, C. A. R., Mrs. Martin in charge, was as follows:

"Off With your Hat!" ............
Robert Hart and Richard Burgevin.
Reading—"Mission of the Red Cross" ............Mary Bruyn
Piano Solo ........Eleanor Reading
Reading—"Woman's Part in War",
Elizabeth Hennesr.

Each number of the program was admirably given, and at the close, light refreshments were served, Mrs. Charles G. Ellis and Mrs. William Kingman being the hostesses.

## PATAUKUNK.

# AS TO TREATMENT OF SEED POTATOES

**Disinfection Urged to Lessen Danger of Scab and to Improve Germination—Directions from Growers From Federal Department of Agriculture.**

By Telegraph to The Freeman.

Washington, D. C., April 6.—The disinfection of seed potatoes by soaking in corrosive sublimate or in formaldehyde is recommended by the U. S. Department of Agriculture as a measure that will tend to improve the germination and lessen the danger of scab.

Such treatment is, on the whole, profitable, but has several limitations which should be clearly recognized to prevent disappointment. The object of disinfecting seed potatoes is to destroy the germs of scab and other surface parasites which might otherwise be planted with the seed and infect the new crop. Only surface infections are reached by this method. It is only partially effective against deep pits of common scab. Neither corrosive sublimate nor formaldehyde, as ordinarily used, will destroy silver scurf. Either one will kill surface infections of blackleg, but neither will reach the internal infections common in tubers from blackleg hills. Neither Fusarium wilt nor late blight infection in potato tubers can be reached by any seed treatment, nor can any of the non-parasitic diseases of potatoes, such as mosaic, leaf roll, and curly dwarf, thus be prevented. See Farmers' Bulletin 544 for descriptions of these troubles.

### Select Disease-Free Seed.

Clearly, therefore, the most important precaution against these diseases is to select clean, disease-free seed potatoes from healthy, vigorous plants, as determined by field inspection during the growing season and at harvest. Seed treatment should then be applied as an additional precaution. It will not be effective, however, if the soil where the potatoes are to be planted is already full of disease.

### Soil Conditions and Potato Diseases.

Soil conditions have an important relation to potato tuber diseases, and many of these are wisely spread throughout the country, and perhaps native to some soils. Common scab is favored by a neutral or slightly alkaline soil and seldom gives trouble in acid soils. It therefore is increased by liming and by fresh stable manure, wood ashes and alkaline fertilizers, such as nitrate of soda and ground bone, while acid phosphate and sulphate of ammonia tend to diminish scab.

Rhizoctonia occurs in some extent in nearly all soils, but appears to attack potatoes most when the conditions are unfavorable to the best development of the potato plant. Bring the land to an ideal state of tilth to minimize loss from Rhizoctonia.

Powdery scab is worst on cold, wet or poorly drained soils. Blackleg, on the other hand, is carried by infected seed. No potatoes showing a deep brown discoloration at the stem end should be planted.

Sulphur tends to prevent common scab. It is not a substitute for corrosive sublimate or formaldehyde, but it a good drier for cut seed. Applied to scab-infected soils at the rate of 500 pounds per acre it reduces the scab, but such heavy applications can not generally be recommended as profitable. Preliminary experimental trials are advised.

### How to Disinfect Seed.

It is considered better to treat potatoes before they are cut into seed, especially if the cut seed is to be very small. Put into the solution all the potatoes it will cover and keep the batch covered by the solution for the period named under the treatment being used.

The formaldehyde treatment consists of soaking the potatoes, before cutting, for two hours in a solution made by adding 1 pint of formaldehyde to 30 gallons of water. The solution can be used repeatedly. The gas treatment is no longer recommended.

The corrosive sublimate treatment is more effective than formaldehyde, particularly against Rhizoctonia, or russet scab, and powdery scab. Corrosive sublimate is used at the rate of 1-1,000 for one and one-half to two hours. Dissolve 2 ounces of the salt in hot water and dilute to 15 gallons. This is a deadly poison. Use with great care. It must be kept in wood, porcelain or glass vessels, as it attacks metal. Seed so treated must not be used in the household or left where animals can reach it.

In using the corrosive sublimate dip it has been found that the solution becomes weaker each time it is used. The degree to which the disinfectant is taken out of the solution varies according to the amount of dirt on the potatoes, the character of the water, and the kind of container. For practical purposes it will be sufficient to add 1 ounce of dissolved corrosive sublimate to each 30 gallons of solution after each batch of potatoes has been treated. When this has been done four times, throw away the old solution and prepare new solution.

To treat large quantities of potatoes, set several barrels on a slightly elevated platform. Fit a plug in a hole in the bottom of each barrel, fill with potatoes, cover with solution, let stand two hours, draw off solution, and pour into another barrel. Increase the number of barrels in proportion to the quantity to be treated. Another method is to use a large wooden vat or trough, into which the potatoes in sacks are lowered by a rope and pulley and later hauled out, drained and dried on slatted racks.

Seed potatoes may be treated several weeks before planting, provided they are not reinfected by storing in old containers or storage bins.

Sprouted potatoes are injured by treatment, but will throw out new sprouts. In general, however, potatoes will not be injured by following the above directions. Many growers believe germination is improved by treatment.

# AS TO TREATMENT OF SEED POTATOES

### Disinfection Urged to Lessen Danger of Scab and to Improve Germination—Directions from Growers From Federal Department of Agriculture.

By Telegraph to The Freeman.

Washington, D. C., April 6.—The disinfection of seed potatoes by soaking in corrosive sublimate or in formaldehyde is recommended by the U. S. Department of Agriculture as a measure that will tend to improve the germination and lessen the danger of scab.

Such treatment is, on the whole, profitable, but has several limitations which should be clearly recognized to prevent disappointment. The object of disinfecting seed potatoes is to destroy the germs of scab and other surface parasites which might otherwise be planted with the seed and infect the new crop. Only surface infections are reached by this method. It is only partially effective against deep pits of common scab. Neither corrosive sublimate nor formaldehyde, as ordinarily used, will destroy silver scurf. Either one will kill surface infections of blackleg, but neither will reach the internal infections common in tubers from blackleg hills. Neither Fusarium wilt nor late blight infection in potato tubers can be reached by any seed treatment, nor can any of the non-parasitic diseases of potatoes, such as mosaic, leaf roll, and curly dwarf, thus be prevented. See Farmers' Bulletin 544 for descriptions of these troubles.

**Select Disease-Free Seed.**

Clearly, therefore, the most important precaution against these diseases is to select clean, disease-free seed potatoes from healthy, vigorous plants, as determined by field inspection during the growing season and at harvest. Seed treatment should then be applied as an additional precaution. It will not be effective, however, if the soil where the potatoes are to be planted is already full of disease.

**Soil Conditions and Potato Diseases.**

Soil conditions have an important relation to potato tuber diseases, and many of these are wisely spread throughout the country, and perhaps native to some soils. # FIGHTING HEAVY NEAR RHEIMS

By Telegraph to The Freeman.

London, April 6.—Fighting rivalling in fierceness the combats around Cambrai, St. Quentin and Laon has been in progress during the past twenty-four hours northwest of Rheims.

Heavy masses of German troops attacked in mass formation along the left bank of the Aisne Canal, assaulting the French trench sections over a front of a mile and a half.

At some points the French positions were penetrated, but during the night powerful counter thrusts were launched.

Dispatches from Paris today quoted military experts as declaring that the Germans intended their counter blow between Rheims and Berry-au-Bac as an effort to lighten the Anglo-French pressure between Arras and the Aisne.

There were violent bombardments along the Somme.

## MUST BE NO SHIRKERS

### Cardinal Gibbons Declares For Stalwart Americanism

By Telegraph to The Freeman.

Baltimore, April 6.—Cardinal Gibbons, who has been an ardent advocate of peace, today declared he is ready to support his country in any way possible. His Americanism asserted itself when he said there must be no shirkers now that war has come.

"In this great emergency," he said, "it behooves every American to do his duty and the primary duty of a citizen is loyalty to country. Loyalty is manifested by acts not words, [illegible] solemn service rather than empty [illegible] exhibited by the absolute obedience by the citizen to his country's call."

## NAVY READY TO MOBILIZE

### Await Word From President to Bring Out Reserve

By Telegraph to The Freeman.

Washington, April 6.—With telegrams addressed to every unit of the service, the navy department awaited the president's word today to mobilize the entire strength of the American navy. This order will bring out the entire reserve of ship [illegible] reserves and the naval militia of all the states, which will at once be mustered into federal service. The [illegible] strength of the navy has of course been mobilized at points not divulged for some time.

## Railway Wreck on Central

By Telegraph to The Freeman.

Rochester, April 6.—Latest reports from the scene of last night's [illegible] wreck on the New York Central railroad near Wayneport, three miles east of Fairport, indicate that at least [illegible] persons were injured when passenger train number seven, the Westerner, due here at 11 [illegible] and running forty minutes late on the trip west, crashed into a freight train which was being switched over [illegible] to the main line of the Central. William M. Cutler of Buffalo, engineer of the passenger train, and Cortland L. Mil[illegible], trainman of Rochester, were killed and Leo T. [illegible] of Syracuse, fireman, was badly scalded.

## "MUST BE NO SHIRKERS!"

### Cardinal Gibbons Declares For Stalwart Americanism.

By Telegraph to The Freeman.

Baltimore, April 6.—Cardinal Gibbons, who has been an ardent advocate of peace, today declared he is ready to support his country in any way possible. His Americanism asserted itself when he said there must be no shirkers, now that war has come.

"In this great emergency," he said, "it behooves every American to do his duty, and the primary duty of a citizen is loyalty to country. Loyalty is manifested by acts, not words; by solemn service, rather than empty declamation. It is exhibited by absolute obedience by the citizen to his country's call."

## NAVY READY TO MOBILIZE.

### Await Word From President to Bring Out Reserve.

By Telegraph to The Freeman.

Washington, April 6—With telegrams addressed to every unit of the service, the navy department awaited the president's word today to mobilize the entire strength of the American navy. This order will bring out the entire reserve of ships, naval reserves and the naval militia of all the states, which will at once be mustered into federal service. The active strength of the navy has of course been mobilized at points not divulged for some time.

## Railway Wreck on Central.

By Telegraph to The Freeman.

Rochester, April 6—Latest reports from the scene of last night's fatal wreck on the New York Central railroad near Wayneport, three miles east of Fairport, indicate that at least 20 persons were injured when passenger train number seven, the Westerner, due here at 11:32 and running forty minutes late on the trip west, crashed into a freight train which was being switched over from the West Shore railroad to the main line of the Central. William M. Cutler, of Buffalo engineer of the passenger train, and Cortland E. Miller, trainman of Rochester were killed and Leo J. Turcott of Syracuse, fireman, was badly scalded.

# PRESIDENT SIGNS WAR RESOLUTION

## At 1:13 O'clock this Afternoon the United States Formally and Officially Entered Into the World War.

By Telegraph to The Freeman.

Washington, April 6.—The United States formally entered the war of nations at 1:13 o'clock today.

At that hour, President Wilson attached his signature to the Flood-Martin resolution, declaring that a state of war exists between this nation and the Imperial German Government, and pledging all the vast men and material resources of the country to bringing that war, to a successful close. The resolution had been signed at the capitol by Vice-President Marshall just fifty-nine minutes before.

Five minutes after the president had signed the resolution, he addressed a proclamation to the American people, and issued a call for volunteers.

# OHIO RIVER BOAT SINKS; TWO LOST

By Telegraph to The Freeman

Parkersburg, W. Va., April 6.—One man was drowned, another is missing and nearly a score of passengers had miraculous escapes in the sinking at Dam 19 in the Ohio river today of the Pittsburgh-Charleston packet Tell City. Shortly before noon Captain Charles Ellsworth reported that careful checking showed that all passengers except Henry Perry, 60, of East Liverpool, Ohio have been accounted for.

A grandson, aged 5, who accompanied him was uninjured.

The scene of the sinking was identical with that at which the packet Kanawha went down a year ago with heavy loss of life.

# TENTH REGIMENT UNITS TOGETHER

The Tenth Regiment is being bunched closer along the line of the aqueduct. E Company of Catskill having been relieved of guard duty on the Poughkeepsie bridge today and returned to regimental headquarters at New Paltz. Companies C and D were brought back to the aqueduct line Thursday from bridge duty at Albany. It is believed that this is a preliminary to mustering in the men into the federal service.

### Bought Potatoes for $2.

Fred Odwell, of Downsville, took in 250 bushels of potatoes Tuesday at the Andes station. The price was $2 per bushel.

### World's Oldest Investment.

The oldest investment security on earth is the real estate mortgage. We know that money was loaned on mortgages in ancient Babylon in the time of King Hamurabi, 4,000 years ago, and that some 2,500 years ago the great Babylonian banking house of the Egibi family invested large sums in mortgages on both city and farm property, the mortgages being recorded on bricks, which have been preserved in the safety deposit vaults of those times—great earthenware jars buried in the earth—preserved until the archaeologists in our own day and age dug them up to show us when, where and how mortgages originated.

# KEEP AWAY FROM THE WILBUR BRIDGE

## Soldiers Must Enforce the Orders They Have to Prevent the Use of Railroad Property as a Thoroughfare.

Kingston continues to figure as a distributing point for various militia units, the Utica company quartered Thursday night at the armory being sent out on the Ontario and Western Railroad this morning to guard tunnels and bridges along that line. Company D of the Albany battalion, Tenth Regiment, was sent to Brown's Station Thursday afternoon while Company C was sent this morning to resume its old place at High Falls which was the scene of its exploits during February. Company C was quartered for the night at the West Shore Hotel.

The only disorder that has marked the militia mobilization occurred Thursday night when a soldier pitched a beer glass through a photograph show case at Leo Bruckheimer's studio at Cornell street and Broadway.

Members of Company I of the Seventy-first had a satisfactory alibi, as they were all in the armory or on duty at the time of the occurrence.

This latter company had been mustered into the federal service before it left New York and it is intent upon enforcing its orders against permitting any persons from crossing the Wilbur bridge without a permit from the West Shore railroad. A number of workmen who live across the Rondout have been compelled to make a detour as a result but the company has no alternative other than to carry out orders.

Citizens will co-operate with the soldiers by keeping away from the places under guard. Captain Delanoy and Lieutenant Warner have a thorough grasp of the situation locally and the best of feeling is in evidence between the guardsmen and local residents as the latter realize the fact that these border-seasoned soldiers are here to obey orders and can tolerate no fooling whatever.

It is not our wrong actions which it requires courage to confess so much as those that are ridiculous and foolish.—Rousseau.

### Hadn't Changed Much.

"Dad, what was the labor of Sisyphus?"

"Sisyphus rolled a stone up a hill, and as fast as he rolled it up it rolled down again. It was a mythological episode. Nothing like that today."

"Oh, I don't know," interposed ma. "Washing dishes is just like that."—Louisville Courier-Journal.

### Effect of Plant Foods.

Potash aids in the formation of starch in the grain, strengthens the stalk and encourages healthy growth.

Nitrogen hastens stalk and leaf growth, lengthens the season of growth and gives the plant a quick start.

Phosphoric acid helps fill the grain, improves the quality and hastens maturity.—New York Sun.

# PRESIDENT SIGNS WAR RESOLUTION

## At 1:13 O'clock this Afternoon the United States Formally and Officially Entered Into the World War.

By Telegraph to The Freeman.

Washington, April 6.—The United States formally entered the war of nations at 1:13 o'clock today.

At that hour, President Wilson attached his signature to the Flood-Martin resolution, declaring that a state of war exists between this nation and the Imperial German Government, and pledging all the vast men and material resources of the country to bringing that war to a successful close. The resolution had been signed at the capitol by Vice-President Marshall just fifty-nine minutes before.

Five minutes after the president had signed the resolution, he addressed a proclamation to the American people, and issued a call for volunteers.

# OHIO RIVER BOAT SINKS; TWO LOST

By Telegraph to The Freeman

Parkersburg, W. Va., April 6.—One man was drowned, another is missing and nearly a score of passengers had miraculous escapes in the sinking at Dam 19 in the Ohio river today of the Pittsburgh-Charleston packet Tell City. Shortly before noon Captain Charles Ellsworth reported that careful checking showed that all passengers except Henry Perry, 60, of East Liverpool, Ohio, have been accounted for.

A grandson, aged 5, who accompanied him, was uninjured.

The scene of the sinking was identical with that at which the packet Kanawha went down a year ago with heavy loss of life.

# TENTH REGIMENT UNITS TOGETHER

The Tenth Regiment is being bunched closer along the line of the aqueduct, E Company of Catskill having been relieved of guard duty on the Poughkeepsie bridge today and returned to regimental headquarters at New Paltz. Companies C and D were brought back to the aqueduct line Thursday from bridge duty at Albany. It is believed that this is a preliminary to mustering in the men into the federal service.

### World's Oldest Investment.

The oldest investment security on earth is the real estate mortgage. We know that money was loaned on mortgages in ancient Babylon in the time of King Hamurabi, 4,000 years ago, and that some 2,500 years ago the great Babylonian banking house of the Egibi family invested large sums in mortgages on both city and farm property, the mortgages being recorded on bricks, which have been preserved in the safety deposit vaults of those times—great earthenware jars buried in the earth—preserved until the archaeologists in our own day and age dug them up to show us when, where and how mortgages originated.

# KEEP AWAY FROM THE WILBUR BRIDGE

## Soldiers Must Enforce the Orders They Have to Prevent the Use of Railroad Property as a Thoroughfare.

Kingston continues to figure as a distributing point for various militia units, the Utica company quartered Thursday night at the armory being sent out on the Ontario and Western Railroad this morning to guard tunnels and bridges along that line. Company D of the Albany battalion, Tenth Regiment, was sent to Brown's Station Thursday afternoon while Company C was sent this morning to resume its old place at High Falls which was the scene of its exploits during February. Company C was quartered for the night at the West Shore Hotel.

The only disorder that has marked the militia mobilizaton occurred Thursday night when a soldier pitched a beer glass through a photograph show case at Leo Bruckheimer's studio at Cornell street and Broadway.

Members of Company I of the Seventy-first had a satisfactory alibi, as they were all in the armory or on duty at the time of the occurrence.

This latter company had been mustered into the federal service before it left New York and it is intent upon enforcing its orders against permitting any persons from crossing the Wilbur bridge without a permit from the West Shore railroad. A number of workmen who live across the Rondout have been compelled to make a detour as a result but the company has no alternative other than to carry out orders.

Citizens will co-operate with the soldiers by keeping away from the places under guard. Captain Delanoy and Lieutenant Warner have a thorough grasp of the situation locally and the best of feeling is in evidence between the guardsmen and local residents as the latter realize the fact that these border-seasoned soldiers are here to obey orders and can tolerate no fooling whatever.

It is not our wrong actions which it requires courage to confess so much as those that are ridiculous and foolish.—Rousseau.

# WILSON PROCLAIMS A STATE OF WAR

## Aliens Warned to Refrain From Acts of Violence or Intrigue--War "Has Been Thrust Upon the United States."

By Telegraph to The Freeman.

Washington, April 6.—President Wilson this afternoon issued a proclamation to the American people, declaring that a state of war exists between the United States and the Imperial German Government.

Strong warning to aliens that acts of violence or intrigue against the United States will be met with drastic action was contained in the president's proclamation.

The text of the proclamation follows:

"By the president of the United States.

"A proclamation.

"Whereas the congress of the United States in the exercise of the constitutional authority vested in them have resolved, by joint resolution of the senate and house of representative bearing date this day 'that the state of war between the United States and the Imperial German Government which has been thrust upon the United States is hereby formally declared:

"Whereas it is provided by Section Four Thousand and Sixty Seven of the revised statutes, as follows:

"Whenever there is declared a war between the United States and any foreign nation or government, or any invasion of predatory incursion is perpetrated, attempted, or threatened against the territory of the United States, by any foreign nation or government, and the president makes public proclamation of the event, all native, citizens, denizens or subjects of the hostile nation or government, being males of the age of fourteen years and upward, who shall be within the United States, and not actually naturalized, shall be liable to be apprehended, restrained, secured, and removed, as alien enemies. The president is authorized, in any such event, by his proclamation thereof, or other public act, to direct the conduct to be observed, on the part of the United States, toward the aliens who become so liable; the manner and degree of the restraint to which they shall be subject, and in what cases, and upon that security their residence shall be permitted, and to provide for the removal of those who, not being permitted to reside within the United States, refuse or neglect to depart therefrom; and to establish any other regulations which are found necessary in the premises and for the public safety:

"Whereas, by sections four thousand and sixty-eight, four thousand and sixty-nine and four thousand and seventy, of the revised statutes, further provision is made relative to alien enemies;

"Now, therefore, I, Woodrow Wilson, president of the United States of America, do hereby proclaim to all whom it may concern that a state of war exists between the United States and the Imperial German Government; and I do specially direct all officers, civil or military, of the United States that they exercise vigilance and zeal in the discharge of the duties incident to such a state of war: and I do, moreover, earnestly appeal to all American citizens that they, in loyal devotion to their country, dedicated from its foundation to the principles of liberty and justice, uphold the laws of the land, and give undivided and willing support to those measures which may be adopted by the constitutional authorities in prosecuting the war to a successful issue and in obtaining a secure and just peace;

"And, acting under and by virtue of the authority vested in me by the constitution of the United States and the said sections of the revised statutes, I do hereby further proclaim and direct that the conduct to be observed on the part of the United States toward all natives, citizens, denizens or subjects of Germany, being males of the age of fourteen years and upwards, who shall be within the United States and not actually naturalized, who for the purpose of this proclamation and under such sections of the sections of the revised statutes are termed alien enemies, shall be as follows:

"All alien enemies are enjoined to preserve the peace towarde the United States and to refrain from crime against the public safety, and from violating the laws of the United States and of the states and territories thereof, and to refrain from actual hostility or giving information, aid or comfort to the enemies of the United States, and to comply strictly with the regulations which are hereby or which may be from time to time promulgated by the president; and so long as they shall conduct themselves in accordance with law, they shall be undisturbed in the peaceful pursuit of their lives and occupations and be accorded the consideration due to all peaceful and law-abiding persons, except so far as restrictions may be necessary for their own protection and for the safety of the United States; and towards such alien enemies as conduct themselves in accordance with the law, all citizens of the United States are enjoined to preserve the peace and treat them with all such friendliness as may be compatible with loyalty and allegiance to the United States.

"And all alien enemies who fail to conduct themselves as so enjoined, in addition to all other penalties prescribed by law, shall be liable to restraint, or to give security or to remove and depart from the United States in the manner prescribed by Sections Four Thousand and Sixty Nine and Four Thousand and Seventy of the Revised Statutes, and as prescribed in the regulations duly promulgated by the president;

"And pursuant to the authority vested in me, I hereby declare and establish the following regulations, which I find necessary in the premises and for the public safety;

"(1)—An alien enemy shall not have in his possession, at any time or place, any fire-arm, weapon or implement of war, or component part thereof, ammunition, Maxim or other silencer; bomb or explosive or material used in the manufacture of explosives;

"(2)—An alien enemy shall not have in his possession at any time or place, or use or operate any aircraft or wireless apparatus, or any form of signalling device, or any form of cipher code, or any paper, document or book written or printed in cipher or in which there may be invisible writing.

"(3)—All property found in the possession of an alien enemy in violation of the foregoing regulations shall be subject to seizure by the United States;

"(4)—An alien enemy shall not approach or be found within one half of a mile of any federal or state fort, camp, arsenal, aircraft station, government or naval vessel, navy yard, factory, or workshop for the manufacture of munitions of war or of any products for the use of the army or navy.

"(5)—An alien enemy shall not write, print, or publish any attack or threats against the government or congress of the United States or either branch thereof, or against the measures of policy of the United States, or against the person or property of any person in the military, naval, or civil service of the United States, or of the states or territories, or of the District of Columbia, or of the municipal governments [illegible]

"(6)—An alien enemy shall not commit or abet any hostile act against the United States or give information, aid or comfort to its enemies.

"(7)—An alien enemy shall not reside in or continue to reside in, to remain in, or enter any locality which the president may from time to time designate by executive order as a prohibited area in which residence by an alien enemy shall be found by him to constitute a danger to the public peace and safety of the U. S., except by permit from the president and except under such limitations or restrictions as the president may prescribe.

"(8)—An alien enemy whom the president shall have reasonable cause to believe to be aiding or about to aid the enmy, or to be at large to the danger of the public peace or safety of the United States; or to have violated or to be about to violate any of these regulations, shall remove to any location designated by the president by executive order, and shall not remove therefrom without a permit, or shall depart from the United States if so required by the president.

"(9)—No alien enemy shall depart from the United States until he shall have received such permit as the president shall prescribe, or except under order of a court, judge, or justice, under sections 4069 and 4070 of the revised statutes.

"(10)—No alien enemy shall land in or enter the United States, except under such restrictions and at such places as the president may prescribe.

"(11)—If necessary to prevent violations of these regulations, all alien enemies will be obliged to register.

"(12)—An alien enemy whom there may be reasonable cause to believe to be aiding or about to aid the enemy, or who may be at large to the danger of the public peace or safety, or who violates or attempts to violate, or of whom there is reasonable ground to believe that he is about to violate any regulation duly promulgated by the president, or any criminal law of the United States, or of the states or territories thereof, will be subject to summary arrest by the United States marshal, or his deputies, or such other officer as the president shall designate, and to confinement in such penitentiary, prison, jail, military camp or other place of detention as may be directed by the president.

"This proclamation and the regulations herein contained shall extend and apply to all land and water, continental or insular, in any way within the jurisdiction of the United States.

"In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done at the City of Washington, this sixth day of April, in the year of Our Lord One Thousand Nine Hundred and Seventeen, and of the independence of the United States the One Hundred and Forty-first.

"WOODROW WILSON.

"By the president:

"ROBERT LANSING.

"Secretary of State."

# NOTED SPEAKER FOR RED CROSS MEETING

In addition to Albert H. Straub, director of the Atlantic Division of the American Red Cross, who will speak at the big Red Cross mass meeting to be held at the high school on Tuesday evening of next week, there will be other noted and most interesting speakers. Lieutenant George H. Roeder of the American Ambulance Field Service, who has seen active service in France since the beginning of the war, and who is a thrilling speaker, will tell of his experiences and of the universally humanitarian work of the Red Cross. Considering the speaker secured and the cause and the times, it is expected that the high school will be filled on Tuesday evening with an enthusiastic gathering of patriotic men and women.

Invitations have been issued for a piano recital to be given by Elmer and Milfred Douglas, pupils of Miss Baisden, on Wednesday evening, April 11, at 8 o'clock, at the residence of the young people, 45 Hemlock avenue, corner of East Chester street. Miss Knapp and Mr. Williams will assist.

### Many Patrons For Charity Ball.

Miss Mary McGill, chairman of the ticket committee of the Charity Ball for the benefit of the Charity Ward of the Benedictine Sanitarium, reports an unusually large number of patrons already secured and tickets selling in a most gratifying manner. The list of patrons will be published as soon as completed. The lemonade booth will be in charge of Miss Winifred Sullivan assisted by Miss Anna Whalen, Miss Anna Desmond, Mrs. John Reynolds, Miss Bessie O'Brien, Miss Katherine Dempsey, Miss Mary Dempsey, Miss Mollie Cullen, Miss Isabelle Howard and Miss Mollie McKeon. Other committees will be announced later.

# BILLY SUNDAY MAY VISIT KINGSTON

The Kingston Tabernacle Association has received a reply to their invitation to Rev. Billy Sunday to visit Kingston during his campaign in New York city which begins on Sunday. George M. Sunday, business manager of the William A. Sunday Evangelistic Association, acknowledged the invitation and said it would be impossible for his father to make any definite promises at the present time regarding a possible visit to Kingston, as the New York campaign was such a tremendous undertaking that it might take all the great evangelist's vitality and strength to hold things together in the big city but that after the meetings are well under way if he feels he has the strength to go outside and hold extra meetings he will be glad to consider the invitation to visit Kingston. The local committee feel confident that they will yet be able to bring Mr. Sunday to Kingston on one of his rest days and it is expected that a delegation of local admirers of Mr. Sunday will visit him in New York and renew the invitation. An appeal will also be made to Ma Sunday to get her husband to spend one of his rest days in visiting this old Colonial town and visting the wonders of the Ashokan reservoir and drinking in some good wholesome Catskill Mountain air.

## ELLENVILLE HAS A SHAKE-UP.

### New Water Board Washes Out Clerk in Office 31 Years.

The Ellenville Water Board reorganized Tuesday with Jacob M. Hoornbeck, president; Irving Ostrander, vice-president; Justin U. Schoonmaker, secretary. Mr. Schoonmaker succeeds William C. Rose and Mr. Ostrander takes the place of A. G. Catherwood, resigned. The board directed John A. Tice, clerk and collector for 31 years, to turn all books and accounts over to Village Clerk C. G. A. Fischer who is held to be clerk of the water board. Superintendent Oliver Ruger resigned and the village clerk will take his place for the time.

## BOYS HELD FOR BURGLARY.

### Seven Arraigned For Entering Camp at Legg's Mills.

Frank Brayton, John Van Steenburgh, Henry Van Steenburgh, Charles Brayton, Raymond Fabiszak, Frank Prusack and Edward Broadhead, seven youths who were arrested charged with entering the camps at Legg's Mills were taken before Justice Walter Weber of the town of Ulster this morning for a hearing. Henry Van Steenburgh the last of the seven was caught last night by Officer Kuehn in a lunch room on Broadway after Sheriff Shultis and his associates had been looking for him. The youths are held on a charge of burglary in the third degree. Assistant District Attorney Hasbrouck appeared for the people at the hearing this morning.

# WILSON PROCLAIMS A STATE OF WAR

## Aliens Warned to Refrain From Acts of Violence or Intrigue--War "Has Been Thrust Upon the United States."

By Telegraph to The Freeman.

Washington, April 6.—President Wilson this afternoon issued a proclamation to the American people, declaring that a state of war exists between the United States and the Imperial German Government.

Strong warning to aliens that acts of violence or intrigue against the United States will be met with drastic action was contained in the president's proclamation.

The text of the proclamation follows:

"By the president of the United States.

"A proclamation.

"Whereas the congress of the United States in the exercise of the constitutional authority vested in them have resolved, by joint resolution of the senate and house of representative bearing date this day 'that the state of war between the United States and the Imperial German Government which has been thrust upon the United States is hereby formally declared:

"Whereas it is provided by Section Four Thousand and Sixty Seven of the revised statutes, as follows:

"Whenever there is declared a war between the United States and any foreign nation or government, or any invasion of predatory incursion is perpetrated, attempted, or threatened against the territory of the United States, by any foreign nation or government, and the president makes public proclamation of the event, all native, citizens, denizens or subjects of the hostile nation or government, being males of the age of fourteen years and upward, who shall be within the United States, and not actually naturalized, shall be liable to be apprehended, restrained, secured, and removed, as alien enemies. The president is authorized, in any such event, by his proclamation thereof, or other public act, to direct the conduct to be observed, on the part of the United States, toward the aliens who become so liable; the manner and degree of the restraint to which they shall be subject, and in what cases, and upon that security their residence shall be permitted, and to provide for the removal of those who, not being permitted to reside within the United States, refuse or neglect to depart therefrom; and to establish any other regulations which are found necessary in the premises and for the public safety;

"Whereas, by sections four thousand and sixty-eight, four thousand and sixty-nine and four thousand and seventy, of the revised statutes, further provision is made relative to alien enemies;

"Now, therefore, I, Woodrow Wilson, president of the United States of America, do hereby proclaim to all whom it may concern that a state of war exists between the United States and the Imperial German Government; and I do specially direct all officers, civil or military, of the United States that they exercise vigilance and zeal in the discharge of the duties incident to such a state of war; and I do, moreover, earnestly appeal to all American citizens that they, in loyal devotion to their country, dedicated from its foundation to the principles of liberty and justice, uphold the laws of the land, and give undivided and willing support to those measures which may be adopted by the constitutional authorities in prosecuting the war to a successful issue and in obtaining a secure and just peace;

"And, acting under and by virtue of the authority vested in me by the constitution of the United States and the said sections of the revised statutes, I do hereby further proclaim and direct that the conduct to be observed on the part of the United States toward all natives, citizens, denizens or subjects of Germany, being males of the age of fourteen years and upwards, who shall be within the United States and not actually naturalized, who for the purpose of this proclamation and under such sections of the sections of the revised statutes are termed alien enemies, shall be as follows:

"All alien enemies are enjoined to preserve the peace towards the United States and to refrain from crime against the public safety, and from violating the laws of the United States and of the states and territories thereof, and to refrain from actual hostility or giving information, aid or comfort to the enemies of the United States, and to comply strictly with the regulations which are hereby or which may be from time to time promulgated by the president; and so long as they shall conduct themselves in accordance with law, they shall be undisturbed in the peaceful pursuit of their lives and occupations and be accorded the consideration due to all peaceful and law-abiding persons, except so far as restrictions may be necessary for their own protection and for the safety of the United States; and towards such alien enemies as conduct themselves in accordance with the law, all citizens of the United States are enjoined to preserve the peace and treat them with all such friendliness as may be compatible with loyalty and allegiance to the United States.

"And all alien enemies who fail to conduct themselves as so enjoined, in addition to all other penalties prescribed by law, shall be liable to restraint, or to give security or to remove and depart from the United States in the manner prescribed by Sections Four Thousand and Sixty Nine and Four Thousand and Seventy of the Revised Statutes, and as prescribed in the regulations duly promulgated by the president;

"And pursuant to the authority vested in me, I hereby declare and establish the following regulations, which I find necessary in the premises and for the public safety;

"(1)—An alien enemy shall not have in his possession, at any time or place, any fire-arm, weapon or implement of war, or component part thereof, ammunition, Maxim or other silencer; bomb or explosive or material used in the manufacture of explosives;

"(2)—An alien enemy shall not have in his possession at any time or place, or use or operate any aircraft or wireless apparatus, or any form of signalling device, or any form of cipher code, or any paper, document or book written or printed in cipher or in which there may be invisible writing.

"(3)—All property found in the possession of an alien enemy in violation of the foregoing regulations shall be subject to seizure by the United States;

"(4)—An alien enemy shall not approach or be found within one half of a mile of any federal or state fort, camp, arsenal, aircraft station, government or naval vessel, navy yard, factory, or workshop for the manufacture of munitions of war or of any products for the use of the army or navy.

"(5)—An alien enemy shall not write, print, or publish any attack or threats against the government or congress of the United States or either branch thereof, or against the measures of policy of the United States, or against the person or property of any person in the military, naval, or civil service of the United States, or of the states or territories, or of the District of Columbia, or of the municipal governments therein.

"(6)—An alien enemy shall not commit or abet any hostile act against the United States or give information, aid or comfort to its enemies.

"(7)—An alien enemy shall not reside in or continue to reside in, to remain in, or enter any locality which the president may from time to time designate by executive order as a prohibited area in which residence by an alien enemy shall be found by him to constitute a danger to the public peace and safety of the U. S., except by permit from the president and except under such limitations or restrictions as the president may prescribe.

"(8)—An alien enemy whom the president shall have reasonable cause to believe to be aiding or about to aid the enmy, or to be at large to the danger of the public peace or safety of the United States; or to have violated or to be about to violate any of these regulations, shall remove to any location designated by the president by executive order, and shall not remove therefrom without a permit, or shall depart from the United States if so required by the president.

"(9)—No alien enemy shall depart from the United States until he shall have received such permit as the president shall prescribe, or except under order of a court, judge, or justice, under sections 4069 and 4070 of the revised statutes.

"(10)—No alien enemy shall land in or enter the United States, except under such restrictions and at such places as the president may prescribe.

"(11)—If necessary to prevent violations of these regulations, all alien enemies will be obliged to register.

"(12)—An alien enemy whom there may be reasonable cause to believe to be aiding or about to aid the enemy, or who may be at large to the danger of the public peace or safety, or who violates or attempts to violate, or of whom there is reasonable ground to believe that he is about to violate any regulation duly promulgated by the president, or any criminal law of the United States, or of the states or territories thereof, will be subject to summary arrest by the United States marshal, or his deputies, or such other officer as the president shall designate, and to confinement in such penitentiary, prison, jail, military camp or other place of detention as may be directed by the president.

"This proclamation and the regulations herein contained shall extend and apply to all land and water, continental or insular, in any way within the jurisdiction of the United States.

"In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done at the City of Washington, this sixth day of April, in the year of Our Lord One Thousand Nine Hundred and Seventeen, and of the Independence of the United States the One Hundred and Forty-first.

"WOODROW WILSON.

"By the president:

"ROBERT LANSING,

"Secretary of State."

# NOTED SPEAKER FOR RED CROSS MEETING

In addition to Albert H. Straub, director of the Atlantic Division of the American Red Cross, who will speak at the big Red Cross mass meeting to be held at the high school on Tuesday evening of next week, there will be other noted and most interesting speakers. Lieutenant George H. Roeder of the American Ambulance Field Service, who has seen active service in France since the beginning of the war, and who is a thrilling speaker, will tell of his experiences and of the universally humanitarian work of the Red Cross. Considering the speaker secured and the cause and the times, it is expected that the high school will be filled on Tuesday evening with an enthusiastic gathering of patriotic men and women.

### Additional Members.

## SOCIETY NOTES.

Invitations have been issued for a piano recital to be given by Elmer and Milfred Douglas, pupils of Miss Baisden, on Wednesday evening, April 11, at 8 o'clock, at the residence of the young people, 45 Hemlock avenue, corner of East Chester street. Miss Knapp and Mr. Williams will assist.

### Many Patrons For Charity Ball.

Miss Mary McGill, chairman of the ticket committee of the Charity Ball for the benefit of the Charity Ward of the Benedictine Sanitarium, reports an unusually large number of patrons already secured and tickets selling in a most gratifying manner. The list of patrons will be published as soon as completed. The lemonade booth will be in charge of Miss Winifred Sullivan assisted by Miss Anna Whalen, Miss Anna Desmond, Mrs. John Reynolds, Miss Bessie O'Brien, Miss Katherine Dempsey, Miss Mary Dempsey, Miss Mollie Cullen, Miss Isabelle Howard and Miss Mollie McKeon. Other committees will be announced later.

# BILLY SUNDAY MAY VISIT KINGSTON

The Kingston Tabernacle Association has received a reply to their invitation to Rev. Billy Sunday to visit Kingston during his campaign in New York city which begins on Sunday. George M. Sunday, business manager of the William A. Sunday Evangelistic Association, acknowledged the invitation and said it would be impossible for his father to make any definite promises at the present time regarding a possible visit to Kingston, as the New York campaign was such a tremendous undertaking that it might take all the great evangelist's vitality and strength to hold things together in the big city but that after the meetings are well under way if he feels he has the strength to go outside and hold extra meetings he will be glad to consider the invitation to visit Kingston. The local committee feel confident that they will yet be able to bring Mr. Sunday to Kingston on one of his rest days and it is expected that a delegation of local admirers of Mr. Sunday will visit him in New York and renew the invitation. An appeal will also be made to Ma Sunday to get her husband to spend one of his rest days in visiting this old Colonial town and visting the wonders of the Ashokan reservoir and drinking in some good wholesome Catskill Mountain air.

### New Water Board Washes Out Clerk in Office 31 Years.

The Ellenville Water Board reorganized Tuesday with Jacob M. Hoornbeek, president; Irving Ostrander, vice-president; Justin U. Schoonmaker, secretary. Mr. Schoonmaker succeeds William C. Rose and Mr. Ostrander takes the place of A. G. Catherwood, resigned. The board directed John A. Tice, clerk and collector for 31 years, to turn all books and accounts over to Village Clerk C. G. A. Fischer who is held to be clerk of the water board. Superintendent Oliver Ruger resigned and the village clerk will take his place for the time.

## BOYS HELD FOR BURGLARY.

### Seven Arraigned For Entering Camp at Legg's Mills.

Frank Brayton, John Van Steenburgh, Henry Van Steenburgh, Charles Brayton, Raymond Fabiszak, Frank Prusack and Edward Broadhead, seven youths who were arrested charged with entering the camps at Legg's Mills were taken before Justice Walter Weber of the town of Ulster this morning for a hearing. Henry Van Steenburgh the last of the seven was caught last night by Officer Kuehn in a lunch room on Broadway after Sheriff Shultis and his associates had been looking for him. The youths are held on a charge of burglary in the third degree. Assistant District Attorney Hasbrouck appeared for the people at the hearing this morning.

### ADVERTISEMENT WRITING

UNWISE advertising economy is an acquired habit with many merchants, like olives and moving pictures, but when the habit is continued—curtain. They seem to believe that each time they blackjack a dollar and lay it away on ice, withdrawing it from their advertising expenditures, they have done wisely. Really such business men are short changing themselves. Well written advertisements are business getters. The other kind won't do at all. Let me write you advs. with pep and punch." George M. Palmer, car. of [illegible] Freeman.

# PATRIOTIC RALLY NEXT FRIDAY

Friday the 13th proved an unfortunate date for the Chamber of Commerce plans for a patriotic rally as the armory has already been spoken for that evening by members of the Old Guard and Captain Meagher did not want two meetings attempted in one night, preferring that the patriotic expressions of Kingstonians be spread out instead of being bunched. No notices have been received as yet as to the plans of such meetings but the Chamber of Commerce intends to aid in holding a mass meeting some time next week.

It was suggested today that the tabernacle could be used for an Easter meeting at which hundreds could be present and hear such plans as the Home Defense Committee might be ready to announce. At such times cards could be circulated to ascertain what citizens wanted to volunteer and in what capacities they would best be able to serve. It is believed that a mass meeting will be one of the first matters to be taken up by the Home Defense Committee upon its appointment.

### Pictures Free to Soldiers

Manager George Gildersleeve of the Kingston Opera House and Y. M. C. A. Auditorium has instructed the ticket takers at each place to admit free of charge the National Guardsmen now on duty in Ulster county who appear at either place in uniform. A number of soldiers from the various stations are in town on leave from time to time. Their uniforms will be sufficient for admission at either theater.

### Four Dogs His Limit

The village board of Ellenville has limited the number of dogs that P. H. Hanley may keep to four. The lot back of Mr. Hanley's barn is said to resemble a battlefield by reason of the dead horses thereon.

# PRESIDENT CALLS FOR VOLUNTEERS

## Regular Army and National Guard to be Augmented in this Way Until Selective Draft is Necessary to Make up Deficiency.

By Telegraph to The Freeman.

Washington, April 6.—President Wilson this afternoon issued a call for volunteers to bring the army and navy up to war strength and gave his endorsement to the general staff army bill designed to obtain men by selective conscription.

"The necessary men," said the president in a statement, "will be secured for the regular army and the National Guard by volunteering as at present until in the judgment of the president a resort to selective draft is advisable."

The following statement was issued at the White House:

"The principles embodied in the legislation presented by the war department to the military committees of the Senate and House have my entire approval and its specific recommendations embody the best judgment of the officers of the war department. It proposes to raise the forces necessary to meet the present emergency by bringing the regular army and the National Guard to war strength and by adding the additional forces which will now be needed so that the national army will comprise three elements: the regular army, the National Guard and the so-called additional forces of which a first 500,000 are to be authorized immediately and later increments of the same size as they may be needed. In order that all these forces may comprise a single army the term of enlistment in the three is equalized and will be for the period of the emergency. The necessary men will be secured for the regular army and the National Guard by volunteering as at present until in the judgment of the president a resort to a selective draft is desirable. The additional forces however are to be raised by selective draft from men ranging in age from nineteen to twenty five years. The quotas of the several states in all of these forces will be in proportion to their population.

"This legislation makes no attempt to solve the question of a permanent military policy for the country, chiefly for the reason that in these anxious and disordered times a clear view cannot be had either of our permanent military necessities or of the best mode of organizing a proper military peace establishment. The hope of the world is that when the European war is over arrangements will have made composing many of the questions which have hitherto seemed to require the arm[illegible] ordered and just way the peace of the world may be maintained by such co-operations of force among the great nations as may be necessary to maintain peace and freedom throughout the world. When arrangements for a permanent peace are made we can determine our military needs and adapt our course of military preparations to the genius of a world organized for justice and democracy. The present bill therefore is adapted to the present situation but it is drawn upon such lines as will enable us to continue its policy or so much of it may be determined to be wise when the present crisis has passed."

### ODDS AND ENDS

The ladies of St. James's M. E. Church have fixed Wednesday, November 21 for their annual fair.

### PORT EWEN

There will be special Easter services in the Reformed Church Sunday school next Sunday morning consisting of recitations by the little children, singing and other appropriate recitations. The Sunday school has purchased one hundred new song books and every one will have an opportunity to enjoy the services and take part in the singing. The song books are the same as those used by Evangelist Peacock during his recent campaign in Kingston. The new superintendent, Hezekiah Hotaling, invites every one to the special services Sunday next.

### No Cause of Action

A verdict of no cause of action was brought in this afternoon in the action brought by Michael Reis against Charles Gruber, to recover $150 as commission in a real estate transaction.

### No Markets Today

By Telegraph to The Freeman.

New York, April 6.—This being Good Friday the stock, cotton and coffee markets were closed.

### Pretty Ancient.

A Welsh chieftain quoted a genealogical tree which carried his family beyond Adam, but a living historian begins his book on the valley of the Connecticut at a date now 17,000,000 years old!—Florida Times Union.

### DIED

SCHLEEDE—In the town of Esopus, Wednesday, April 4, 1917, Christian Schleede, beloved husband of Caroline Schleede.

Relatives and friends are invited to attend the funeral from his late home on the River road at Ulster Park on Sunday afternoon, April 8, at 1 o'clock, and from the English Lutheran Church of the Redeemer, [illegible] at 2 o'clock. Interment in Montrepose Cemetery.

# TO ACT TOMORROW ON HOME DEFENSE

Judge Jenkins, Mayor Canfield and Chairman Hartshorn of Board of Supervisors to Carry Out Governor's Instructions.

Judge Jenkins, Mayor Canfield and Chairman Hartshorn of the board of supervisors will meet tomorrow for the purpose of appointing the Home Defense Committee as requested by Governor Whitman in his letter sent to the county judges, mayors and chairmen of boards of supervisors throughout the state.

After considerable telephoning Chairman Hartshorn was located this morning at Newburgh but he found it impossible to come to Kingston today. He will be in Kingston tomorrow morning.

Most of the counties have already appointed their Home Defense Committees which will co-operate with the state authorities in carrying out plans for home defense and other measures outlined in the Governor's letter which was published in Wednesday's Freeman.

### ABOUT THE FOLKS

### A Low Down Swindle

"My wife," said Mr. Clark, "sent $2 in answer to an advertisement of a simple method of getting rid of superfluous fat."

"Was the information what she wanted?" asked Mr. Simmons.

"Well, she got a reply telling her to sell it to the soap man."—Pittsburgh Chronicle.

The sun dried cuttlefish or devilfish of the Gold coast, with stickers, in fact looks something like a football. The shredded part is more tempting than the tentacles.

### THE JOINERS

News of Interest to Members of Fraternal Societies

The following lodges hold regular meetings this evening:

Kingston Lodge, No. 413, I. O. O. F., in Odd Fellows Hall, 36 East Strand.

United Brotherhood of Carpenters and Joiners, Local No. [illegible]1, at 635 Broadway.

Bluestone Cutters Union, at 635 Broadway.

Kingston Chapter, No. 155, Order of the Eastern Star, in Masonic Hall, corner of Broadway and Strand.

Norwood Conclave, No. 6,662, Improved Order of Heptasophs, in Diamond Hall.

At the meeting of the Ladies' Helping Hand Society held in Mertz's Lodge rooms on Thursday afternoon a most enjoyable time was spent, the occasion being the celebration of the birthday of the treasurer of the society, Mrs. Barbara Drantz. Refreshments were served and Mrs. Drantz was presented with a number of birthday gifts including a potted plant and cut flowers. Mrs. Pauline Schick, president of the society, was also remembered with a very pretty potted plant. Both Mrs. Drantz and Mrs. Schick responded fittingly and thanked the society. The meeting was one of the most enjoyable spent by the society in some time.

### Second Base Play

Second base is called the pivot position of the infield. This is because most of the plays center around second base. Many double plays read short to second to first, third to second to first, second to short to first, first to second to first and so on. Records show teams strong on double plays are usually teams well up in the race. Generally speaking, ability to make double plays speaks well for a team's defense. A good defense means few runs for the opposition provided the pitching is of the proper kind. Since second base is the pivot position much of the team's success depends upon the way that base is played. If the shortstop and second baseman work smoothly it usually has the effect of balancing the rest of the team. A club that is constantly mussing up plays around the second sack never causes much trouble for the opposition.—Billy Evans in New York World.

### Scandinavian Politeness

Two points which attract the attention of travelers in Sweden are the punctilious honesty and truthfulness of the inhabitants. When asking for places at a theater for instance the ticket clerk never fails to inform the applicant if owing to a crowded state of the house a better position would be secured with a cheaper ticket than the one asked for. Again when parcels are [illegible] from Stockholm to country places in the neighborhood they are just placed on to the quay where they frequently remain half a day without being claimed. It never seems to occur to any one that they could possibly be taken by anybody but their rightful owners. On a canal trip of any length a little book lies in the saloon of the steamer in which each passenger keeps his own account of the number of [illegible] fees, etc., he takes during the [illegible]

### The Clever Brahmans

Speaking of the great [illegible] Brahmans in India possess, [illegible] long thought a prominent [illegible] once said: "We would consider [illegible] of chess as played in this country mere child's play. An ordinary Brahman chess player could carry on three or four games at a time without inconvenience. The usual game played by the Brahmans consists in checkmating with one pawn designated when the play begins. I have seen a man perform a long problem in multiplication and division at the same time noting the various sounds and discussions going on about him in the room. I have seen a man compose a triple acrostic in Sanskrit in a given meter at the same time having three well versed men trying to overthrow him in his argument on religion."

Grass is the natural food of the horse. On no other food will it keep so healthy, be one so strong or live so long.

# HELP WANTED

Somewhere in Kingston There's a Girl or Woman

who is worthy of a better position and a better wage—as a houseworker than she may now be receiving

Here's Her Chance to Better Herself!

Why shouldn't those who choose to earn their living in the kitchen pass on up as their experience and efficiency increase, to better "jobs"—the same as women do who occupy business positions?

Simply because most houseworkers get in a rut and lose ambition—instead of watching for a chance to make a desirable change—where good work will be appreciated and paid for accordingly.

This is an Opportunity to be well Paid for Good Service

—in a Kingston home where the last maid has served for 7 years—and her predecessor 5 years—each leaving only because of serious illness. The family washing and ironing is sent out, there is a second girl constantly employed and the mistress of the home is a "working boss."

Are You Interested?

If so, application may be made in confidence by addressing

### Just a Suggestion

Before a man is hired to work at certain munitions plants he is required to give a complete account of himself and to answer a series of printed questions on a regular form.

The most important question of all appears at the head of each pedigree form. It is printed in bold faced type and inquires: "Where shall we ship your remains?"

Many a prospective workman gets cold feet when this significant query greets his eyes.—New York Sun.

### The President's Title

Washington, the first president, was inaugurated April 30, 1789. The ceremony was delayed several days while congress disputed as to whether the chief magistrate should have such title as "his excellency," "his highness" or the like. It was decided that he should be simply "the president of the United States."

### At the Reception

Said He—They tell me you are an authority on flowers. Said She—Oh, hardly an authority, although I have made a study of them. Said He—Well, what would be the result if a blooming idiot was to mate with a society bud?—Exchange.

### Hoggish

Constituent—I worked hard for you and deserve some reward. Mayor—Some reward! Didn't I shake hands with you twice in public—before the election?—Exchange.

### ADVERTISEMENT WRITING.

UNWISE advertising economy is an acquired habit with many merchants, like olives and moving pictures, but when the habit is continued—curtain! They seem to believe that each time they blackjack a dollar and lay it away on ice, withdrawing it from their advertising expenditures, they have done wisely. Really, such business men are shortchanging themselves. Well written advertisements are business getters. The other kind won't do at all. Let me write you advs. with "pep and punch." George M. Zellmer, care of Kingston Freeman.

# PATRIOTIC RALLY NEXT FRIDAY

Friday, the 13th, proved an unfortunate date for the Chamber of Commerce plans for a patriotic rally as the armory has already been spoken for that evening by members of the Old Guard and Captain Meagher did not want two meetings attempted in one night, preferring that the patriotic expressions of Kingstonians be spread out instead of being bunched. No notices have been received as yet as to the plans of such meetings but the Chamber of Commerce intends to aid in holding a mass meeting some time next week.

It was suggested today that the tabernacle could be used for an Easter meeting at which hundreds could be present and hear such plans as the Home Defense Committee might be ready to announce. At such times cards could be circulated to ascertain what citizens wanted to volunteer and in what capacities they would best be able to serve. It is believed that a mass meeting will be one of the first matters to be taken up by the Home Defense Committee upon its appointment.

### Pictures Free to Soldiers.

Manager George Gildersleeve, of the Kingston Opera House and Y. M. C. A. Auditorium, has instructed the ticket takers at each place to admit free of charge the National Guardsmen now on duty in Ulster county who appear at either place in uniform. A number of soldiers from the various stations are in town on leave from time to time. Their uniforms will be sufficient for admission at either theater.

### Four Dogs His Limit.

The village board of Ellenville has limited the number of dogs that P. H. Hanley may keep to four. The lot back of Mr. Hanley's barn is said to resemble a battlefield by reason of the dead horses thereon.

# PRESIDENT CALLS FOR VOLUNTEERS

## Regular Army and National Guard to be Augmented in this Way Until Selective Draft is Necessary to Make up Deficiency.

By Telegraph to The Freeman.

Washington, April 6.—President Wilson this afternoon issued a call for volunteers to bring the army and navy up to war strength, and gave his endorsement to the general staff army bill designed to obtain men by selective conscription.

"The necessary men," said the president in a statement, "will be secured for the regular army and the National Guard by volunteering, as at present, until, in the judgment of the president, a resort to selective draft is advisable."

The following statement was issued at the White House:

"The principles embodied in the legislation presented by the war department to the military committees of the Senate and House have my entire approval, and its specific recommendations embody the best judgment of the officers of the war department. It proposes to raise the forces necessary to meet the present emergency by bringing the regular army and the National Guard to war strength and by adding the additional forces which will now be needed, so that the national army will comprise three elements, the regular army, the National Guard, and the so-called additional forces, of which a first 500,000 are to be authorized immediately and later increments of the same size as they may be needed. In order that all these forces may comprise a single army, the term of enlistment in the three is equalized and will be for the period of the emergency. The necessary men will be secured for the regular army and the National Guard by volunteering, as at present, until, in the judgment of the president, a resort to a selective draft is desirable. The additional forces, however, are to be raised by selective draft from men ranging in age from nineteen to twenty-five years. The quotas of the several states in all of these forces will be in proportion to their population.

"This legislation makes no attempt to solve the queston of a permanent military policy for the country, chiefly for the reason that in these anxious and disordered times a clear view cannot be had either of our permanent military necessities or of the best mode of organizing a proper military peace establishment. The hope of the world is that when the European war is over, arrangements will have made composing many of the questions which have hitherto seemed to require the arming of the nations, and that in some ordered and just way the peace of the world may be maintained by such co-operations of force among the great nations as may be necessary to maintain peace and freedom throughout the world. When arrangements for a permanent peace are made, we can determine our military needs and adapt our course of military preparations to the genius of a world organized for justice and democracy. The present bill, therefore, is adapted to the present situation, but it is drawn upon such lines as will enable us to continue its policy, or so much of it may be determined to be wise, when the present crisis has passed."

### ODDS AND ENDS.

The ladies of St. James's M. E. Church have fixed Wednesday, November 21, for their annual fair.

### PORT EWEN.

There will be special Easter services in the Reformed Church Sunday school next Sunday morning, consisting of recitations by the little children, singing and other appropriate recitations. The Sunday school has purchased one hundred new song books, and every one will have an opportunity to enjoy the services and take part in the singing. The song books are the same as those used by Evangelist Peacock during his recent campaign in Kingston. The new superintendent, Hezekiah Hotaling, invites every one to the special services Sunday next.

### No Cause of Action.

A verdict of no cause of action was brought in this afternoon in the action brought by Michael Reis against Charles Gruberg to recover $150 as commission in a real estate transaction.

### No Markets Today.

By Telegraph to The Freeman.

New York, April 6—This being Good Friday, the stock, cotton and coffee markets were closed.

### Pretty Ancient.

A Welsh chieftain quoted a genealogical tree which carried his family beyond Adam, but a living historian begins his book on the valley of the Connecticut at a date now 17,000,000 years old!—Florida Times-Union.

### DIED.

SCHLEEDE—In the town of Esopus, Wednesday, April 4, 1917, Christian Schleede, beloved husband of Caroline Schleede.

Relatives and friends are invited to attend the funeral from his late home on the River road at Ulster Ulster Park, on Sunday afternoon, April 8, at 1 o'clock, and from the English Lutheran Church of the Redeemer, this city, at 3 o'clock. Interment in Montrepose Cemetery.

# TO ACT TOMORROW ON HOME DEFENSE

## Judge Jenkins, Mayor Canfield and Chairman Hartshorn of Board of Supervisors to Carry Out Governor's Instructions.

Judge Jenkins, Mayor Canfield and Chairman Hartshorn of the board of supervisors will meet tomorrow for the purpose of appointing the Home Defense Committee as requested by Governor Whitman in his letter sent to the county judges, mayors and chaimen of boards of supervisors throughout the state.

After considerable telephoning, Chairman Hartshorn was located this morning at Newburgh, but he found it impossible to come to Kingston today. He will reach Kingston tomorrow morning.

Most of the counties have already appointed their Home Defense Committees, which will co-operate with the state authorities in carrying out plans for home defense and other measures outlined in the Governor's letter, which was published in Wednesday's Freeman.

### A Low Down Swindle.

"My wife," said Mr. Clark, "sent $2 in answer to an advertisement of a simple method of getting rid of superfluous fat."

"Was the information what she wanted?" asked Mr. Simmons.

"Well, she got a reply telling her to sell it to the soap man."—Pittsburgh Chronicle.

### THE JOINERS.

**News of Interest to Members of Fraternal Societies.**

The following lodges hold regular meetings this evening:

Kingston Lodge, No. 413, I. O. O. F., in Odd Fellows' Hall, 36 East Strand.

United Brotherhood of Carpenters and Joiners, Local No. 251, at 635 Broadway.

Bluestone Cutters' Union, at 635 Broadway.

Kingston Chapter, No. 155, Order of the Eastern Star, in Masonic Hall, corner of Broadway and Strand.

Norwood Conclave, No. 6,662, Improved Order of Heptasophs, in Diamond's Hall.

At the meeting of the Ladies' Helping Hand Society held in Aretas Lodge rooms on Thursday afternoon a most enjoyable time was spent the occasion being the celebration of the birthday of the treasurer of the society, Mrs. Barbara Drautz. Refreshments were served and Mrs. Drautz was presented with a number of birthday gifts including a potted plant and cut flowers. Mrs. Pauline Schick, president of the society, was also remembered with a very pretty potted plant. Both Mrs. Drautz and Mrs. Schick responded feelingly and thanked the society. The meeting was one of the most enjoyable spent by the society in some time.

### Second Base Play.

Second base is called the "pivot position of the infield." This is because most of the plays center around second base. Many double plays read "short to second to first; third to second to first; second to short to first; first to second to first," and so on. Records show teams strong on double plays are usually teams well up in the race. Generally speaking, ability to make double plays speaks well for a team's defense. A good defense means few runs for the opposition, provided the pitching is of the proper kind. Since second base is the pivot position, much of the team's success depends upon the way that base is played. If the shortstop and second baseman work smoothly it usually has the effect of balancing the rest of the team. A club that is constantly mussing up plays around the second sack never causes much trouble for the opposition.—Billy Evans in New York World.

### Scandinavian Politeness.

Two points which attract the attention of travelers in Sweden are the punctilious honesty and truthfulness of the inhabitants. When asking for places at a theater, for instance, the ticket clerk never fails to inform the applicant if owing to a crowded state of the house a better position would be secured with a cheaper ticket than the one asked for. Again, when parcels are taken by steamer from Stockholm to country places in the neighborhood they are just placed on to the quay, where they frequently remain half a day without being claimed. It never seems to occur to any one that they could possibly be taken by anybody but their rightful owners. On a canal trip of any length a little book lies in the saloon of the st[illegible]ner, in which each passenger keep[illegible] wn account of the number of [illegible] fees, etc., he takes during th[illegible]

### The Clever Brahma

Speaking of the great [illegible] Brahmans in India possess[illegible] ing thought, a prominent [illegible] once said: "We would conside[illegible] one of chess as played in this country mere child's play. An ordinary Brahman chess player could carry on three or four games at a time without inconvenience. The usual game played by the Brahmans consists in checkmating with one pawn designated when the play begins. I have seen a man perform a long problem in multiplication and division, at the same time noting the various sounds and discussions going on about him in the room. I have seen a man compose a triple acrostic in Sanskrit in a given meter, at the same time having three well versed men trying to overthrow him in his argument on religion."

Grass is the natural food of the horse. On no other food will it keep so healthy, become so strong or live so long.

# HELP WANTED

Somewhere in Kingston There's a Girl or Woman

who is worthy of a better position and a better wage—as a houseworker, than she may now be receiving.

Here's Her Chance to Better Herself!

Why shouldn't those who choose to earn their living in the kitchen pass on up, as their experience and efficiency increase, to better "jobs"—the same as women do who occupy business positions?

Simply because most houseworkers get in a rut and lose ambition—instead of watching for a chance to make a desirable change—where good work will be appreciated and paid for accordingly.

This is an Opportunity to be well Paid for Good Service

—in a Kingston home where the last maid has served for 7 years—and her predecessor 5 years—each leaving only because of serious illness. The family washing and ironing is sent out; there is a second girl constantly employed and the mistress of the home is a "working boss."

Are You Interested?

If so, application may be made in confidence by addressing

Box 629
Kingston, N. Y.

### Just a Suggestion.

Before a man is hired to work at certain munitions plants he is required to give a complete account of himself and to answer a series of printed questions on a regular form.

The most important question of all appears at the head of each pedigree form. It is printed in bold faced type and inquires, "Where shall we ship your remains?"

Many a prospective workman gets "cold feet" when this significant in[illegible] greets his eyes.—New York Sun.

### The President's Title.

Washington, the first president, was inaugurated April 30, 1789. The ceremony was delayed several days while congress disputed as to whether the chief magistrate should have such title as "his excellency," "his highness" or the like. It was decided that he should be simply "the president of the United States."

### At the Reception.

Said He—They tell me you are an authority on flowers. Said She—Oh, hardly an authority, although I have made a study of them. Said He—Well, what would be the result if a blooming idiot was to mate with a society bud?—Exchange.

### Hoggish.

Constituent—I worked hard for you and deserve some reward. Mayor—Some reward! Didn't I shake hands with you twice in public—before the election?—Exchange.

### Boys Make Practice of Setting Grass Fires Causing Firemen Much Trouble—Practice Dangerous and Arrests Will Follow

For some time past boys have been making a practice of setting fire to grass and brush heaps causing a number of still alarms to be sent into the fire department which has been kept on the jump answering the alarms This practice of setting fire to the grass in vacant lots and near houses and barns is exceedingly dangerous and may lead to property catching fire and causing much damage

This morning a young boy was notified to appear before Recorder [illegible] [illegible] he had caused a grass fire on Hoffman street The court warned the boy that the practice was dangerous and that hereafter all boys brought before him on that charge would be dealt with and punished

The young lad was given a warning and as this had been the first time he was ever in trouble he was discharged

The police and Recorder Lang expect to work hand in hand in stopping this dangerous practice of setting fires and if it is not stopped arrests will follow

# BOOZE TOO MUCH FOR FRED VAIL

### It Led to His Arrest on Complaint of His Wife—Takes Pledge for Three Months and Will Pay Wife Money

Too much booze led to the arrest of Fred Vail a deckhand on one of the Central Hudson boats on Thursday afternoon by Policeman James A Connelly on a warrant sworn out by Mrs Vail This morning Vail was arraigned before Recorder Lang and pleaded guilty to causing a disturbance at his home on East Strand but said he remembered nothing about it as he was drunk

Vail confessed that booze caused all the trouble and that he and his wife got along all right when he was sober but for some time past he has not contributed to her support

After hearing both sides Recorder Lang on Vail's plea of guilty sentenced him to three months in the county jail but suspended sentence when Vail took the pledge for three months and agreed to pay his wife $[illegible] a week Vail was warned by the court that if he was brought before the court again on a charge of intoxication within three months that the sentence imposed would be carried out

### Verdict of $14.05 for Passmore in Suit Over Grapes.

A verdict in the sum of $14.05 for the plaintiff, Louis K. Passmore, and a dismissal of the counterclaim for $200 was the decision brought in late Thursday afternoon in the case brought by Mr. Passmore against Geremia Mascitelli. The case was the outcome of a contract entered into by Mr. Passmore who is a grape grower at Marlborough and Mr. Mascitelli, a wine maker of the same place. John Rusk and Frank Brooks appeared for Mr. Passmore and Alexander Johnson of Marlborough appeared for the defendant.

At the conclusion of the Marlborough case the action brought by Michael A. Reis against Charles Gruberg was taken up. The action is brought by Mr. Reis to collect a commission for selling real estate. Mr. Reis claims that he acted as Gruberg's broker and when Gruberg exchanged his farm for city property he became indebted to Mr. Reis in the sum of $150. Gruberg claims that he exchanged his farm near Whiteport for the Befeler store property on Murray street but not under the terms stated by Mr. Reis. The case will be continued today. Amos [illegible] Etten appears for Mr. Re[illegible] Frank W. Brooks for the de[illegible] Mr. Gruberg.

# BOOZE TOO MUCH FOR FRED VAIL

### It Led to His Arrest on Complaint of His Wife—Takes Pledge for Three Months and Will Pay Wife Money.

Too much booze led to the arrest of Fred Vail, a deckhand on one of the Central Hudson boats, on Thursday afternoon by Policeman James V. Connelly on a warrant sworn out by Mrs. Vail. This morning Vail was arraigned before Recorder Lang and pleaded guilty to raising a disturbance at his home on East Strand, but said he remembered nothing about it as he was drunk.

Vail confessed that booze caused all the trouble, and that he and his wife got along all right when he was sober, but for some time past he has not contributed to her support.

After hearing both sides Recorder Lang on Vail's plea of guilty sentenced him to three months in the county jail, but suspended sentence when Vail took the pledge for three months and agreed to pay his wife $5 a week. Vail was warned by the court that if he was brought before the court again on a charge of intoxication within three months that the sentence imposed would be carried out.

### QUARRYVILLE.

Quarryville, April 5.—The plays entitled "The Mischievous Nigger" and "Strategy" will be given in the hall Wednesday evening, April 18. Miss Eunice Smith, the elocutionist of Catskill, will assist. Full two hours of solid fun. Come and see and hear Dinah and Dandy. The admission has been fixed so that all may attend. Adults, 20 cents and children under 12, 10 cents. If you want a good laugh don't let anything keep you away.

Owing to our pastor being at conference there will be no preaching service next Sunday afternoon. Sunday school at 2 o'clock. We are hoping for the return of our pastor to this charge for another year.
